GEOTECHNICAL ANALYSIS FORM FOR FINAL CONSTRUCTION INSPECTION: TO BE COMPLETED BY A STATE OF WASHINGTON LICENSED ENGINEER QUALIFIED IN THE SPECIALTY OF GEOTECHNICAL ENGINEERING ATTACHED AS A PART OF A LETTER FROM THE GEOTECHNICAL ENGINEER BEARING THE ENGINEER’S SEAL AND SUBMITTED PRIOR TO FINAL INSPECTION OR OCCUPANCY.

Project Name: __________________________________________________________________________
Planning/Building Permit #: ____________________________________________________________
Applicant’s Name: ______________________________ Applicant’s Telephone #: ___________________
Project Street Address or Location: _________________________________________________________
Geotechnical Engineer’s Name & License #: _________________________________________________
Engineer’s Phone #: _____________________________________________________________________
Signature: _____________________________ Date: __________________________

Submit this form after all geotechnical work is complete and prior to requesting final inspection or occupancy. The City requires the Geotechnical Engineer to certify that the improvements were constructed as intended or modified with the Geotechnical Engineer’s approval based on field conditions.

1) All geotechnical features recommended by the Geotechnical Engineer (including any stormwater piping and footing drains) shall be inspected by the Geotechnical Engineer prior to backfilling. Final acceptance of the project requires professional engineering stamped certification by the Geotechnical Engineer stating that:

“The geotechnical project issues have been observed by me or under my supervision and have been constructed and appear to function in general accordance with the recommendations in the Geotechnical Report for the project, or as modified based on my field recommendations and adjustments, if any.”

Initial and date here if you agree with the above statement: _____________________________

Please state any approved field adjustments made to your approved recommendations:
