AGENDA

4:00 PM Call to Order (Attendance, Agenda, Ethics)
Disclosure of Potential Conflicts of Interest
Review & Adoption of Minutes: August 18, 2020

4:10 PM Finalize Road Map & First Steps

5:00 PM Adjourn

For special accommodations, please contact Planning & Community Development 206-780-3750 or at pcd@bainbridgewa.gov
Green Building Task Force
Disclosure of Potential Conflicts of Interests

Updated July 2020

To be read at the beginning of each meeting.

As an initial note for the record, this Green Building Task Force consists of individuals with specific professional expertise in green building programs.

Members of the Task Force have provided, or will soon provide, the City with “Conflict of Interest Statements” that will be available via the Task Force’s webpage.

In the interests of full disclosure and transparency, we will begin this meeting by asking each member of the Task Force to disclose whether they, or a member of their immediate family, have any direct or indirect contractual employment, financial or private interests, or other potential conflicts of interest in, or related to, any of the green building programs or other agenda items scheduled to be discussed at today’s meeting.

[Each Task Force member must verbally state their disclosure(s)]

Having heard the disclosure(s) of your colleagues, are there any objections to the members of the Task Force in attendance proceeding with the agenda for today’s meeting?

[Pause for objections]

[If no objection] Hearing no objection, by unanimous consent all members of the Task Force in attendance will fully participate in today’s agenda.

[If objection, the members should discuss their concerns. Individual members could agree to recuse themselves from discussion of specific agenda items, as may be warranted.] Having discussed the objection(s) raised, all those in favor of proceeding in the manner discussed please signify by saying “aye.” All those opposed?
Call to Order (Attendance, Agenda, Ethics)
Review Minutes – August 4, 2020
Finalize Road Map & First Steps
Adjourn

Call to Order (Attendance, Agenda, Ethics)
Senior Planner Peter Best called the meeting to order at 3:03 PM. Task Force members in attendance were Jonathan Davis, Kathleen O’Brien, Richard Perlot, Jason Wilkinson, Russ Hamlet and Marty Sievertson. Kathleen Smith and Julie Kriege were absent and excused. City Council Liaison Joe Deets was present. City Staff present were Building Inspector Blake Holmes and Administrative Specialist Carla Lundgren who monitored the remote meeting and prepared minutes.

The agenda was reviewed and approved.

Disclosure of Potential Conflicts of Interest – Read aloud by Senior Planner Peter Best

Review and Adoption of Minutes – August 4, 2020

  Motion: I move to adopt the minutes as presented.
  Wilkinson/Perlot: Passed (5 yes -0 no, 1 abstained)

Finalize Road Map & First Steps
  Discussion only

Adjourn
The meeting was adjourned at 5:42 PM.
### “Road Map” for a Bainbridge Island Green Building Program

**Principles**

- **Lead by example**
- **Equity/Justice**
- **Future ready (e.g. solar, EV, internet-based system controls/smart grid, battery storage, etc)**

**Phase 1 (Interim by Oct)**

- **Theme: Carbon Reduction**
  - Rely on prior public engagement and 1 public hearing
  - Mandatory “baseline” green building programs for all building types
  - Optional “stretch” green building programs
  - Scaled to building size
  - Mature programs & market acceptance
  - Few additional carbon reduction measures

**Phase 2 (Oct - Feb)**

- **Theme: Carbon Neutral**
  - Expanded engagement (community & industry)
  - Economic assessment, incentives, assistance programs (affordability & health equity)
  - Electric vehicle & solar ready
  - Embedded carbon reductions (concrete & other materials)
  - Carbon offsets
  - Site requirements
  - Program evaluation process

**Phase 3 (+1 year)**

- **Theme: Carbon Storage**
  - Adaptive Management (next steps based on program performance)

### Components

- **Principles**

- **Theme**

- **Phase 1 (Interim by Oct) Theme: Carbon Reduction**

- **Phase 2 (Oct - Feb) Theme: Carbon Neutral**

- **Phase 3 (+1 year) Theme: Carbon Storage**
The green building programs listed in Table 1 are adopted by the City of Bainbridge Island and organized into green building categories. For the programs listed in the applicable category, those indicated with an “R” are baseline required programs (choose one if there is more than one required program). “O” are optional programs and may be used instead of a required program, and “A” are programs that may be used in addition to a required or optional program but shall not be used instead of a required or optional program but may be used in addition to a required or optional program.

</tbody>
</table>
1 – The PHIUS+ Certification is optional in Category C *only* when combined with the LEED Zero Certification or the International Living Future Institute’s Zero Energy Certification for single-family residences and accessory dwellings.

2 – Encouraged to be combined with the Core Green Building Certification for institutional buildings.

3 – If the existing building was built under a green building program, a remodel or addition shall meet the more energy efficient of the following:
   - A green building program specified in this section for the listed green building category; or
   - The green building program used for the original building.

Notes regarding **Table 2 - Green Building Requirements**:
- Recommendations in yellow require a local amendment to the State Building Code approved by the State Building Code Council
- Requirements are not applicable to:
  - Affordable housing projects subject to RCW 39.35D.080
- Requirements are applicable to:
  - Other affordable housing projects exempted from RCW 39.35A.080
  - State buildings subject to RCW 39.35A

Other GBTF Recommendations

**City Buildings** – Lead by example (retroactive to police/court facility)

**Incentives**
- Reduced building permit fees (refunded at final certification)
- Puget Sound Energy – many of the existing rebates, grants, and design assistance will apply to green building projects

**Additional Carbon Footprint Reduction Measures**
- Heat pumps used whenever possible for space & water heating
- *Propane* may be used as secondary backup heat, or where heat pumps are not capable of providing for the task (such as for tankless water heaters or high demand boiler systems)
- Don’t allow electric resistance elements for space heating

Commented [PB9]: I noticed that ILFI has a cross walk for combining their Zero Energy Certification with PHIUS+. Should this also be an allowed combination? Seeking confirmation from GBTF.

Commented [PB10]: Added by staff. Seeking GBTF feedback.

Commented [PB11]: Recommended by Richard.
