- **Map where and how you travel** on the island

The screenshot shows a web browser displaying the website for Bainbridge Island's Sustainable Transportation Plan. The browser's address bar shows the URL <https://sustainabletransportationbi.com/>. The website header includes the text "Participate online: August 3 - August 30". The main banner features the Bainbridge Island logo, a stylized mountain range, and icons representing various modes of transportation: a person walking, a person on a bicycle, a person in a wheelchair, a person on a skateboard, a car, and a bus. Below the banner is a navigation menu with links: "Welcome", "About the plan", "Timeline", "Share your ideas", "Stay involved", "Resources", and "Contact us". The "Welcome" section contains the following text: "Bainbridge Island's Sustainable Transportation Plan will establish a new vision for how we travel around the island safely and help meet the City Council's goal of reducing 90% of greenhouse gas emissions by 2045. We will work together to create a connected transportation system that improves mobility and safety for all, while honoring our rural island character." Below this is a "What's Happening Now?" section with the text: "This summer, we want to hear your big ideas, understand your mobility values and learn about the ways you move around the island. Please scroll through this open house and look for the comment bubbles to share your feedback." A "Join us!" section is also visible, with the text: "Join us Aug. 20 at 7 p.m. for a live video overview of the Sustainable Transportation Plan! Webinar registration link: [bainbridgewa.zoom.us/webinar/register/WN\\_z1S2euhFSJmHFXCs1joF2Q](https://bainbridgewa.zoom.us/webinar/register/WN_z1S2euhFSJmHFXCs1joF2Q)." On the right side, there is a "CITY OF BAINBRIDGE ISLAND" logo and a news item dated "08/01/2020" stating: "Due to COVID-19, the City of Bainbridge Island will continue to review outreach tools with the safety of its community members and staff in mind. We are moving forward with the Sustainable Transportation Plan. However, we are following current public health guidelines by moving our outreach and meetings to online platforms, supplemented by non-digital, socially-distanced activities to ensure everyone has a chance to participate. The City will continue to monitor".

No sidewalk north side of Wyatt near Madison. Also the storm drain always flows up out onto the street instead of down into the drain the way it is supposed to go.

# Draft Plan Goals

*Use values to shape desired outcomes*

***The Bainbridge  
Island Sustainable  
Transportation  
Plan will define  
our mobility future***

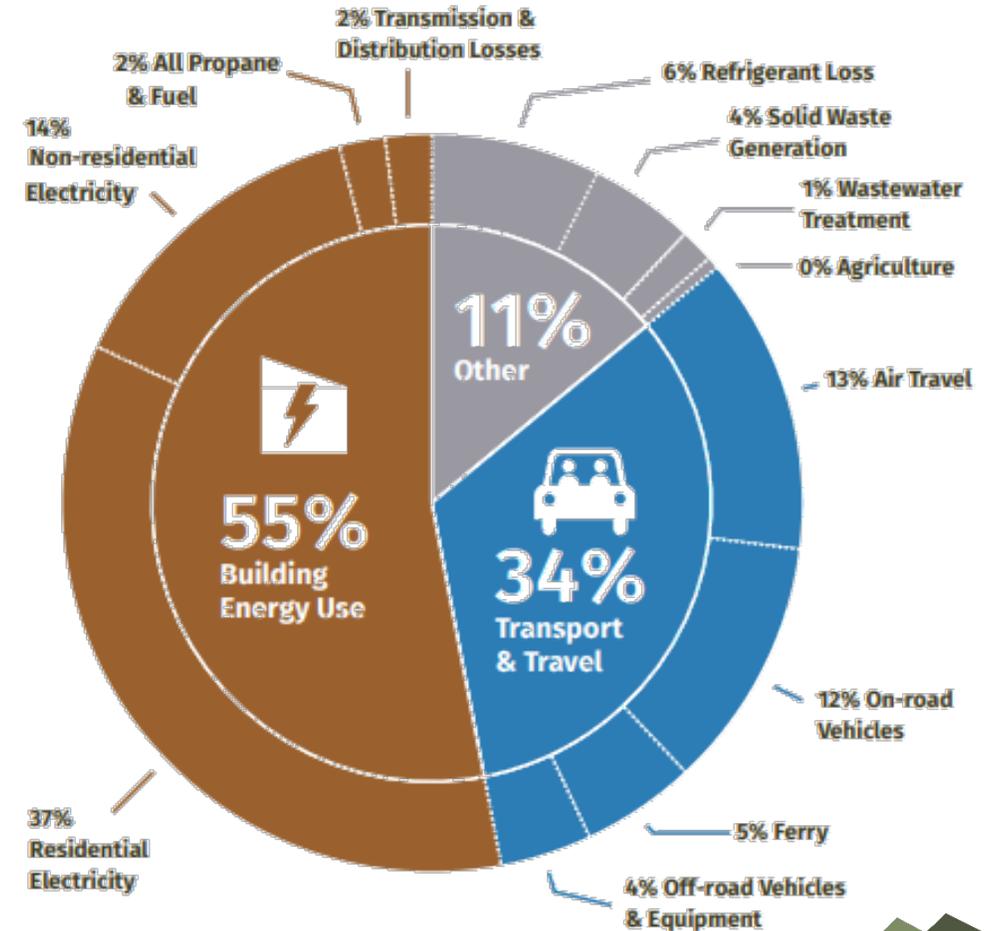

# Our North Star

## Climate Action

Reduce transportation-related emissions in support of the Island-wide goal of 90% greenhouse gas (GhG) emissions reduction by 2045

### Community Overall Emissions 233,998 MTCO<sub>2e</sub>

# Draft Supportive Goals

- **Safety:** achieve zero fatalities
- **Equity:** eliminate disproportionate burden
- **Mode Shift:** reduce drive-alone trips
- **Comfortable and Accessible:** create an all ages and abilities network
- **Connected and Convenient:** develop an integrated system
- **Implementation:** maximize space and resources

# Bringing it All Together

- Your values will help to refine these goals and our desired outcomes
- Existing conditions and the needs and opportunities you share will guide our analysis of gaps
- We'll identify projects and programs to help fill those gaps
- And then the values and goals will help us prioritize what comes first

# Getting Engaged

*We want to hear from you*

# Our Task Force

- 21 people representing different perspectives on the Island
- Meeting every other month
- Reviewing work and providing insight on needs and experiences
- Focusing on goals and desired outcomes first

The screenshot displays a Zoom meeting interface. On the left, a grid of 21 video thumbnails shows participants in various settings. Some thumbnails are dark, indicating muted participants.
