

MEETING TRANSCRIPT – BAINBRIDGE ISLAND CITY COUNCIL – BUSINESS MEETING – 04/27/2021

1

00:00:00.630 --> 00:00:04.259

Rasham Nassar: Hopefully, our other Council members will join us in the next minute.

2

00:00:38.100 --> 00:00:44.310

Rasham Nassar: I'm gonna wait one more moment for councilmember car to show up I haven't heard that she was planning to be late so not.

3

00:00:44.340 --> 00:00:46.380

Michael Pollock: Sure she'll be here on I'm sure.

4

00:01:22.950 --> 00:01:23.460

Rasham Nassar: Okay.

5

00:01:23.700 --> 00:01:28.170

Rasham Nassar: let's go ahead and get started Council going to call this meeting to order.

6

00:01:30.030 --> 00:01:43.800

Rasham Nassar: meeting is a regular business meaning of the city council, the date is Tuesday April 27 we have all seven Council Members in attendance, with us tonight, also with us, are the city attorney hello, and the interim city manager.

7

00:01:46.500 --> 00:01:50.730

Rasham Nassar: Our first order of business, this evening is an executive session.

8

00:01:51.870 --> 00:02:02.370

Rasham Nassar: Pursuant to our CW 42.3 0.1101 I to discuss with legal counsel matters relating to litigation or potential litigation, to which the city.

9

00:02:02.910 --> 00:02:08.790

Rasham Nassar: governing body or a Member, acting in an official capacity is or is less likely to become a party.

10

00:02:09.210 --> 00:02:20.730

Rasham Nassar: When public knowledge regarding the discussion is likely to result in an adverse legal or financial consequence to the Agency looks like our scheduled time for this agenda item is 45 Minutes it is.

11

00:02:20.760 --> 00:02:30.930

Rasham Nassar: 6:02pm that puts us returning back in open session at around 6:47pm city attorney.

12

00:02:31.800 --> 00:02:37.860

Joe Levan: Yes, so Council, as always, if you lead this meeting I'll send you the invite for the exact session you'll join that and then we'll go from there.

13

00:47:36.150 --> 00:47:39.390

Christine Brown: Council has extended the executive session for 10 minutes.

14

00:58:44.190 --> 00:58:47.520

Christine Brown: Council has extended the executive session by five minutes.

15

01:06:26.190 --> 01:06:30.240

Christine Brown: Council has extended the executive session by an additional five minutes.

16

01:11:21.630 --> 01:11:25.710

Christine Brown: Council has extended the executive session by an additional five minutes.

17

01:13:32.970 --> 01:13:33.360

There, she is.

18

01:13:36.840 --> 01:13:38.460

Rasham Nassar: Okay, I think we're all back.

19

01:13:40.680 --> 01:13:52.170

Rasham Nassar: city council has returned from its executive session we will reconvene the regular business meeting at 7:30pm and we are on agenda item three approval of the agenda.

20

01:13:53.910 --> 01:13:55.170

Rasham Nassar: councilmember pollock.

21

01:13:57.360 --> 01:14:04.770

Michael Pollock: Now so i'd like to remove item 11 a from the agenda that's the appointment of the Office for numbers.

22

01:14:06.420 --> 01:14:08.040

Rasham Nassar: Okay, is there a second for that Council.

23

01:14:10.650 --> 01:14:12.840

Rasham Nassar: Council member finra Johnson got that second.

24

01:14:14.220 --> 01:14:19.740

Rasham Nassar: Is there any debate on councilmember politics motion to remove item 11 be.

25

01:14:20.490 --> 01:14:20.850

Right.

26

01:14:26.490 --> 01:14:31.080

Rasham Nassar: Okay, and we will not vote on that motion all those Council Deputy Mayor her topless.

27

01:14:32.760 --> 01:14:34.200

Kirsten Hytopoulos: Where would we be moving it to.

28

01:14:35.580 --> 01:14:41.850

Rasham Nassar: We can discuss moving it during future agendas and rescheduling it when we look at our future agendas.

29

01:14:42.420 --> 01:14:44.070

Kirsten Hytopoulos: Okay, so just.

30

01:14:44.100 --> 01:14:45.510

Kirsten Hytopoulos: Just my vote would be.

31

01:14:45.690 --> 01:14:48.450

Kirsten Hytopoulos: dependent on that So when I vote that's that will be based on that.

32

01:14:49.920 --> 01:14:56.400

Rasham Nassar: Okay, well, I suppose Council can discuss what meeting to add it at this point in time, who do you want to propose.

33

01:14:56.460 --> 01:15:04.080

Kirsten Hytopoulos: I would not, I would not, I would be willing to move it out one week, but I would not just openly would not just move it out in definitely so.

34

01:15:04.830 --> 01:15:06.780

Michael Pollock: i'm happy to accept thousand friendly amendment.

35

01:15:08.550 --> 01:15:17.040

Rasham Nassar: OK, so the motion on the floor has been amended to remove item 11 eight from this evening's agenda and add it to next week's agenda.

36

01:15:19.980 --> 01:15:21.240

Rasham Nassar: Okay city attorney.

37

01:15:22.920 --> 01:15:34.530

Joe Levan: One thing you can say there is it's, of course, next week is a study session so if there's going to be the council's going to take action, then you'd be taking action, as I should study session what you can do, but it's your it's not your common of course of action.

38

01:15:35.580 --> 01:15:35.880

Joe Levan: and

39

01:15:35.970 --> 01:15:40.410

Rasham Nassar: The motions as a written or they to for to consent or were these one touch approvals.

40

01:15:40.920 --> 01:15:42.240

Joe Levan: One touch the way it was written.

41

01:15:43.260 --> 01:15:43.620

Joe Levan: Okay.

42

01:15:43.680 --> 01:15:47.220

Rasham Nassar: Does any counseling or take issue with what the city attorney pointed out.

43

01:15:48.810 --> 01:15:50.700

Rasham Nassar: Now, Deputy Mayor, did you have additional comments.

44

01:15:52.020 --> 01:16:09.360

Rasham Nassar: yeah Okay, we will not vote on the motion on the floor all those in favor please say Aye Aye any opposed, so the motion to remove item 11 a from tonight's agenda has been approved by Council unanimously, can I have a motion to approve tonight's agenda, as amended, please come.

45

01:16:10.740 --> 01:16:11.970

Rasham Nassar: A Deputy Mayor had topless.

46

01:16:14.010 --> 01:16:16.560

Kirsten Hytopoulos: I have, I have an addition I have emotion, for an addition.

47

01:16:19.080 --> 01:16:28.470

Kirsten Hytopoulos: That so I had this will take me a second i'm there had been an item tracking for a while, which was for us to receive the salary commissions.

48

01:16:30.930 --> 01:16:36.600

Kirsten Hytopoulos: raise that was approved for that they their termination of a race for the Council.

49

01:16:37.620 --> 01:16:49.950

Kirsten Hytopoulos: And I was surprised to see that it had been removed, so I asked the city manager and apparently mayor, you had had it removed I think about a week ago, because we have no formal action to take.

50

01:16:50.640 --> 01:17:01.380

Kirsten Hytopoulos: But my concern was that, although we have no formal action to take the Community has a very time limited opportunity to overturn it if they don't agree with it.

51

01:17:01.860 --> 01:17:12.960

Kirsten Hytopoulos: They have 30 days to overturn it by referendum and the time I believe has started to run on that so i'm concerned about the fact that, if we don't make a touch on that today.

52

01:17:13.890 --> 01:17:17.790

Kirsten Hytopoulos: there's just inadequate time for them if they were able to pull that together.

53

01:17:18.390 --> 01:17:23.100

Kirsten Hytopoulos: So I do believe that we owe it to the Community to have at least a brief touch on our.

54

01:17:23.490 --> 01:17:31.680

Kirsten Hytopoulos: The raise that the very substantial raise that has been given to us by the salary Commission tonight, and I would ask a majority of Council of not unanimous consent.

55

01:17:32.160 --> 01:17:41.130

Kirsten Hytopoulos: With that back on the agenda tonight to at least receive formally those numbers to just announce those and explain to the Community, that they do have the option of.

56

01:17:42.480 --> 01:17:46.020

Kirsten Hytopoulos: Using the a referendum initiative process to.

57

01:17:47.250 --> 01:17:47.940

contest that.

58

01:17:49.800 --> 01:17:54.210

Kirsten Hytopoulos: And if anyone needs any further explanation because this is all new to me i'll let me know.

59

01:17:55.320 --> 01:18:00.600

Rasham Nassar: i'd be happy to clarify Deputy Mayor because I didn't have conversations with in Room city manager related to this.

60

01:18:01.440 --> 01:18:09.750

Rasham Nassar: um what I learned was that the salary Commission did not intend to come present their final decision to the Council.

61

01:18:10.200 --> 01:18:19.170

Rasham Nassar: And so the decision to add it to a Council agenda, I felt should come from the City Council so that was something that I intended to bring up a city council tonight during future agendas.

62

01:18:20.370 --> 01:18:30.750

Rasham Nassar: Because the assumption, for which served as a reason why it was on a future agenda was at the salary Commission intended to present but they decided after meeting.

63

01:18:31.140 --> 01:18:38.940

Rasham Nassar: With it, not this past not yesterday, but I think the week before that they would just issue a memo on the record, and then the interim city manager.

64

01:18:39.990 --> 01:18:46.830

Rasham Nassar: discussed sharing the information with the Community through other means, I believe the interim city manager published it in your.

65

01:18:47.670 --> 01:18:57.840

Rasham Nassar: weekly email to the Community and i'm not sure what else what other advertisements you've issued interesting manager Maybe you can just note that, while we're discussing it right now.

66

01:18:59.280 --> 01:19:03.600

Ellen Schroer (she/her): Sure, I didn't actually include it last week, but I plan to include it this week in the.

67

01:19:04.320 --> 01:19:12.270

Ellen Schroer (she/her): city managers weekly email, and we also did include that information in the coby connects which will be distributed to the Community and early May.

68

01:19:12.720 --> 01:19:21.270

Ellen Schroer (she/her): The intention was so that as many people as possible would know about this in case it would affect their decision about whether or not to run and also because it's a matter of general public interest.

69

01:19:21.870 --> 01:19:32.280

Kirsten Hytopoulos: The problem is, is that we're not we haven't announced the numbers which are \$36,000 for us and \$48,000 for mayor, which is an enormous raise.

70

01:19:32.370 --> 01:19:33.480

Kirsten Hytopoulos: And I believe.

71

01:19:33.480 --> 01:19:38.490

Rasham Nassar: Order heaven i'm sorry, but the Council you, you have a proposal to add the item for discussion.

72

01:19:38.490 --> 01:19:45.210

Rasham Nassar: Now for tonight's agenda, so the Council can vote to add it, at which point we can actually have the discussion.

73

01:19:45.990 --> 01:19:50.010

Kirsten Hytopoulos: right and just just because I am making the pitch one I think is an urgent issue to our Council.

74

01:19:51.120 --> 01:20:04.410

Kirsten Hytopoulos: That, I believe that 30 day clock began taking six or seven days ago, at least so Council i've made my pitch do we add a five or 10 minute touch on this tonight, so that we formally inform the Community.

75

01:20:06.210 --> 01:20:07.740

Rasham Nassar: That a second from councilmember deets.

76

01:20:11.400 --> 01:20:20.130

Rasham Nassar: Okay, any further any further discussion on the motion to add a discussion of the salary commission's decision related to councilmember salaries to tonight's agenda.

77

01:20:22.590 --> 01:20:23.460

Rasham Nassar: councilmember pollock.

78

01:20:24.210 --> 01:20:31.230

Michael Pollock: Now i'm working would just suggest that we limited to five minutes and just be informational rather than debated.

79

01:20:38.040 --> 01:20:38.520

Michael Pollock: gospel.

80

01:20:40.650 --> 01:20:46.410

Kirsten Hytopoulos: yep I just want to get the basic information out and make a request to the city attorney to come back with some additional information.

81

01:20:48.240 --> 01:20:48.510

Great.

82

01:20:50.280 --> 01:21:01.770

Rasham Nassar: Okay, so um I would if if the motion passes, we could discuss were to add it to the agenda, but it sounds like five minutes and we're Council discussion would be what would be most.

83

01:21:04.230 --> 01:21:04.500

So we'll.

84

01:21:05.940 --> 01:21:06.120

Michael Pollock: Just.

85

01:21:07.470 --> 01:21:10.170

Rasham Nassar: Council members, can you please wait to be recognized before you speak.

86

01:21:12.180 --> 01:21:16.170

Rasham Nassar: It will just help my facilitation of our meeting to make sure that Council members get to speak in order.

87

01:21:17.880 --> 01:21:20.580

Rasham Nassar: So use the raise hand function at the bottom of your zoom screen.

88

01:21:23.220 --> 01:21:24.870

Rasham Nassar: consummate Republic, you want to.

89

01:21:26.130 --> 01:21:26.550

Rasham Nassar: comment.

90

01:21:26.730 --> 01:21:30.600

Michael Pollock: I want to suggest that we just bring it up and give it the order.

91

01:21:33.840 --> 01:21:34.260

Kirsten Hytopoulos: Or we did.

92

01:21:35.790 --> 01:21:50.550

Rasham Nassar: Well there's a motion on the floor and it's been second to so let's vote on the motion on the floor if that fails, then we can move to plan B all those in favor of the motion on the floor, they say I write your post so that pass passes unanimously.

93

01:21:52.170 --> 01:22:03.900

Rasham Nassar: We will add a brief five minute presentation, no salary commission's decision related to salary councilmember salaries to our agenda this evening, and I propose that we added as the new item 12 a.

94

01:22:04.980 --> 01:22:05.940

Rasham Nassar: Under Council discussion.

95

01:22:07.920 --> 01:22:08.340

Rasham Nassar: Okay.

96

01:22:11.400 --> 01:22:11.670

Rasham Nassar: Okay.

97

01:22:11.730 --> 01:22:13.080

Rasham Nassar: Anything else for.

98

01:22:14.430 --> 01:22:15.960

Rasham Nassar: our agenda this evening Council.

99

01:22:19.470 --> 01:22:28.740

Rasham Nassar: Where the Council would like to put a motion on the floor to approve the count the agenda as amended and councilmember pollock are you making that motion, or do you have an item to suggest for tonight.

100

01:22:29.760 --> 01:22:33.180

Michael Pollock: To approve the agenda as a member okay second.

101

01:22:33.570 --> 01:22:36.660

Rasham Nassar: house number eight seconds that motion is there any further discussion on that motion.

102

01:22:37.830 --> 01:22:39.750

Rasham Nassar: All those in favor please say Aye Aye.

103

01:22:40.140 --> 01:22:44.670

Rasham Nassar: Aye opposed code that motion passes unanimously.

104

01:22:46.650 --> 01:22:48.780

Rasham Nassar: Are there any conflicts of interest to disclose tonight.

105

01:22:51.870 --> 01:22:55.620

Rasham Nassar: Okay i'm seeing none We will now move on to item for and our agenda, which is public comment.

106

01:22:56.700 --> 01:23:01.590

Rasham Nassar: members of the public, you can find instructions for providing public comment in the agenda packet.

107

01:23:02.310 --> 01:23:08.880

Rasham Nassar: In order to be recognized to speak, please use the raise hand feature located at the bottom of your zoom zoom screen.

108

01:23:09.630 --> 01:23:22.170

Rasham Nassar: I will call your name in the order that your hand appears raised and the city clerk will facilitate you coming into the Council chambers, at which point you can unmute and begin your public comment, which is limited to three minutes.

109

01:23:23.790 --> 01:23:27.150

Rasham Nassar: Our first public comment or tonight is brandon caps.

110

01:23:31.650 --> 01:23:32.760

Brandon Capps: All right, can everybody hear me.

111

01:23:34.110 --> 01:23:34.380

Rasham Nassar: Yes.

112

01:23:35.310 --> 01:23:43.860

Brandon Capps: All right, good evening Council, my name is brandon caps and i'm a government affairs representative for puget sound energy, thank you for the opportunity by public comment this evening.

113

01:23:44.490 --> 01:23:48.330

Brandon Capps: As you know, electric reliability on bainbridge island needs to be improved.

114

01:23:48.690 --> 01:23:57.480

Brandon Capps: As part of PhDs effort to improve reliability on the island, he has he plans to build a new transmission line between the burden code and winslow substations to create a transmission loop.

115

01:23:58.290 --> 01:24:05.850

Brandon Capps: by completing a transmission loop if one substation loses power from a damaged transmission line the affected substation as an alternative way to receive power.

116

01:24:06.630 --> 01:24:14.100

Brandon Capps: Yes, he is committed to engage in the bainbridge island Community throughout the project our stakeholder lead group the Community sounding board or CSP.

117

01:24:14.370 --> 01:24:21.960

Brandon Capps: has met eight times to discuss the routing criteria provide feedback on that criteria and to provide feedback on the route segments and around options.

118

01:24:22.830 --> 01:24:29.160

Brandon Capps: Remember, yes, he held a Community workshop on January 21 and kept a public comment treat open until February 12.

119

01:24:29.520 --> 01:24:42.540

Brandon Capps: So I residents could interact with our route segment explored tool and review segments and provide feedback on those segments, we had 97 individuals zoom accounts attend the public workshop and receive feedback from 88 unique commenters.

120

01:24:43.920 --> 01:24:52.770

Brandon Capps: After reviewing the feedback PSE received on the route segments, following our first Community workshop PSC is now entering our second island wide comment period to introduce route options.

121

01:24:53.160 --> 01:25:02.100

Brandon Capps: it's includes a second virtual Community workshop, and we welcome all island residents to attend PSC second virtual workshop on may 3 from five o'clock to 7:30pm.

122

01:25:03.030 --> 01:25:10.080

Brandon Capps: In addition to targeted stakeholder outreach on the workshop PSC has mail letters to all residents within 500 feet of the project study area.

123

01:25:10.350 --> 01:25:20.700

Brandon Capps: send out an island wide postcard is running digital and physical advertisements on local publications and is leveraging our newsletter list birds and social media platforms to spread the word about the workshop.

124

01:25:22.680 --> 01:25:30.180

Brandon Capps: For 30 days following the workshop additional review and feedback opportunities will be available through PSC online interactive route explorer tools.

125

01:25:30.360 --> 01:25:43.680

Brandon Capps: which will allow individuals to review the different route options under consideration and provide feedback on that feedback provided at the Community workshop and through the route explorer tool, one on PCs route selection to connect them urban cove and winslow substations.

126

01:25:44.790 --> 01:25:54.900

Brandon Capps: The Community has other opportunities to provide feedback, including our webpage where anyone can send feedback at any time by calling or emailing our project team, as well as future CSP meetings.

127

01:25:55.470 --> 01:26:02.280

Brandon Capps: Once PCs selected a preferred route, there will be continued ways to engage with the project as it moves through the permitting and design project phases.

128

01:26:02.880 --> 01:26:09.690

Brandon Capps: Work continued to keep committed to keeping the opportunity to keep the Community informed of our progress on this critical infrastructure projects.

129

01:26:10.320 --> 01:26:20.460

Brandon Capps: For additional information on the project or to rsvp for the workshop please visit PSC bainbridge dot participate online you have any questions about the project in its Community engagement process.

130

01:26:21.870 --> 01:26:24.840

Brandon Capps: email info at PSE being bridge COM, thank you.

131

01:26:27.030 --> 01:26:27.570

Rasham Nassar: Thank you.

132

01:26:30.810 --> 01:26:32.730

Rasham Nassar: Okay next up is Eleanor.

133

01:26:39.360 --> 01:26:50.460

eleanorfooteweinel: Good evening Council, my name is Eleanor why now and i'm here representing the Board of Directors of the bainbridge island senior Community Center.

134

01:26:50.940 --> 01:27:03.150

eleanorfooteweinel: i'm a member of the board and was also a member of the team that's overseeing the renovation work to the building i'd like to address your item 10 see on under unfinished business.

135

01:27:03.960 --> 01:27:18.150

eleanorfooteweinel: Which is the agreement with coach designed to proceed with the work I simply want to reiterate the center's approval of the proposal for professional services that coach design presented.

136

01:27:19.260 --> 01:27:27.690

eleanorfooteweinel: We were particularly impressed in the interview process with the firm's enthusiasm for doing renovation work that's rare these days.

137

01:27:30.390 --> 01:27:44.490

eleanorfooteweinel: Their proposal is both clear and thorough and it indicates, I think, a very good grasp of what we want, that is, the scope of the work, and that includes the budget, which is not enormous.

138

01:27:46.290 --> 01:27:56.220

eleanorfooteweinel: Also, they present a strong process that involves the clients in working out the scheme again, an aspect that we.

139

01:27:56.220 --> 01:27:57.450

Rasham Nassar: appreciate much.

140

01:27:59.190 --> 01:28:09.090

eleanorfooteweinel: Finally, we have approved our share of the fees and we look forward to working with coach design and we hope that you will give the contractor approval, thank you very much.

141

01:28:16.170 --> 01:28:19.470

Rasham Nassar: Are there any other members of the public that wish to comment tonight.

142

01:28:22.140 --> 01:28:33.360

Rasham Nassar: not seeing any other hands raised so with that I will close the public comment period and Council, we are moving on in our agenda to item five this city managers report interim see manager good.

143

01:28:33.390 --> 01:28:35.070

Ellen Schroer (she/her): evening Council and community, thank you for.

144

01:28:35.070 --> 01:28:42.450

Ellen Schroer (she/her): joining us tonight just a couple of brief notes, we are continuing to participate in the partnership to provide covid vaccines.

145

01:28:42.990 --> 01:28:49.500

Ellen Schroer (she/her): We have a limited number of single dose Johnson and Johnson appointments available this coming Saturday and Sunday at commoner.

146

01:28:50.100 --> 01:29:00.630

Ellen Schroer (she/her): We anticipate that this will be our last first dose vaccine clinic the percentage of vaccinated people on Bainbridge is very high, and we're actually seeing.

147

01:29:01.260 --> 01:29:09.360

Ellen Schroer (she/her): Some delay in filling those slots, so are glad that the partnership has been able to deliver that service to the community and.

148

01:29:10.230 --> 01:29:13.350

Ellen Schroer (she/her): Will ramp back up if and when the.

149

01:29:14.010 --> 01:29:26.430

Ellen Schroer (she/her): Emergency authorization is provided for younger people, and we are continuing also to offer second disappointments, to those who received first dosages so we can continue to check that information on our website and.

150

01:29:26.850 --> 01:29:30.990

Ellen Schroer (she/her): continue to receive the vaccine here on bainbridge island by going there and making an appointment.

151

01:29:31.980 --> 01:29:40.920

Ellen Schroer (she/her): wanted to also let you know that the coby connects newsletter is coming out in May we just briefly touched on that, but that newsletter will be arriving in your mailbox and I hope you'll look for that.

152

01:29:42.000 --> 01:29:47.670

Ellen Schroer (she/her): We are i'm encouraging the watching community to consider filing for elected office that.

153

01:29:48.480 --> 01:29:58.350

Ellen Schroer (she/her): Week is the week of the 17th to the 21st of May, and you can do that by going to the kids up elections website and considering filing for elected office.

154

01:29:58.980 --> 01:30:08.820

Ellen Schroer (she/her): And then also just to put in a plug for our weekly farmers market here on the town square area it's from 10 to two every Saturday, so thank you and looking forward to the rest of the meeting.

155

01:30:11.130 --> 01:30:13.050

Rasham Nassar: Thank you very much for that interim city manager.

156

01:30:13.770 --> 01:30:17.880

Rasham Nassar: Council we are moving on in our agenda now to Item six our consent agenda.

157

01:30:21.630 --> 01:30:23.100

Rasham Nassar: councilmember deets yeah.

158

01:30:23.160 --> 01:30:27.060

Joe Deets: hi Mary Thank you I moved to approve the consent agenda.

159

01:30:28.290 --> 01:30:31.440

Rasham Nassar: Customer pollock second set motion is there any further discussion on that motion.

160

01:30:32.850 --> 01:30:34.590

Rasham Nassar: All those in favor please say Aye.

161

01:30:34.980 --> 01:30:35.640

Joe Deets: Aye Aye.

162

01:30:36.060 --> 01:30:36.780

Rasham Nassar: Any opposed.

163

01:30:37.560 --> 01:30:39.030

That motion passes unanimously.

164

01:30:40.260 --> 01:30:48.000

Rasham Nassar: Item seven in our agenda future Council agendas interim city manager, would you like to point out or highlight any specific items of relevance for the Council tonight.

165

01:30:48.690 --> 01:30:50.250

Ellen Schroer (she/her): Sure, just a couple of items.

166

01:30:50.520 --> 01:30:53.490

Ellen Schroer (she/her): Next week, may 4 we are starting our meeting at.

167

01:30:54.090 --> 01:31:07.380

Ellen Schroer (she/her): 530 to allow for a special 60 minute executive session i'm following that time there are a number of pretty meaty topics on the agenda so i'm looking forward to that and then also you have just added one item to that agenda.

168

01:31:08.400 --> 01:31:12.810

Ellen Schroer (she/her): The last item is a an update on the contrast franchise agreement.

169

01:31:12.990 --> 01:31:22.650

Ellen Schroer (she/her): This is not a decision point for you, we had this on here, because it was a matter of public interest and I will work with the Mayor and Deputy Mayor to understand if you'd like to have that scheduled on the agenda or that you'd.

170

01:31:23.460 --> 01:31:28.470

Ellen Schroer (she/her): prefer to receive that information in writing so i'll be checking in on that and that may move.

171

01:31:29.790 --> 01:31:33.750

Ellen Schroer (she/her): Moving forward to the first business meeting may 11.

172

01:31:35.310 --> 01:31:48.270

Ellen Schroer (she/her): We are bringing some in there will be a couple of proclamations and some finance items for you, I will call your attention to may 18 that will be the first meeting, where the new city manager Blair King will be joining us.

173

01:31:50.880 --> 01:31:55.890

Ellen Schroer (she/her): And will also pick up our work plan discussion at that time and then i'm.

174

01:31:56.550 --> 01:32:06.360

Ellen Schroer (she/her): Going forward, we have fewer items scheduled, but I imagine we'll pick up some more I do want to call your attention to the fact, we have a special meeting currently scheduled on Wednesday may 26 with the ethics board.

175

01:32:07.500 --> 01:32:10.050

Ellen Schroer (she/her): That concludes my comments at this time.

176

01:32:10.590 --> 01:32:14.220

Rasham Nassar: Right, thank you for that councilmember Pandora Johnson.

177

01:32:15.180 --> 01:32:23.070

Brenda Fantroy-Johnson: Yes, i'd like to add an item to a future agenda for updating the governance manual regarding public comment.

178

01:32:25.320 --> 01:32:26.220

Rasham Nassar: Okay.

179

01:32:27.510 --> 01:32:30.960

Rasham Nassar: Is there a majority a Council that supports the addition of that item to a future agenda.

180

01:32:32.310 --> 01:32:34.440

Rasham Nassar: head nods would be great okay and.

181

01:32:35.340 --> 01:32:38.790

Rasham Nassar: I hope the Council would be okay with interim city manager deputy.

182

01:32:39.660 --> 01:32:45.840

Rasham Nassar: mayor and I scheduling that on a future agenda when it's most appropriate during our agenda, setting meeting this Thursday.

183

01:32:48.540 --> 01:32:50.250

Rasham Nassar: Anything else comes from or pantry Johnson.

184

01:32:52.920 --> 01:32:53.790

Rasham Nassar: Council number car.

185

01:32:55.560 --> 01:33:07.140

Christy Carr: yeah thanks i'm sorry that I haven't gotten the hang of this agenda setting thing quite yet, but I have a question about the list of future topics that appears in our future agendas and.

186

01:33:08.280 --> 01:33:17.010

Christy Carr: i'd like clarification that we need to agree to that list before they land on agenda items or on agendas or not.

187

01:33:18.150 --> 01:33:32.520

Christy Carr: And how that works when we have that list as the agenda setting team decide to put it on an agenda, or is it or the things that we're going to revisit in the future and agree majority of Council to place those items on the agenda.

188

01:33:33.990 --> 01:33:39.750

Rasham Nassar: Yes, I can speak briefly to that that list was just created to track items that were important to one or.

189

01:33:40.290 --> 01:33:48.660

Rasham Nassar: one to three Council members that had not yet had an opportunity to be brought forward for the full Councils consideration during this portion of our Council meetings.

190

01:33:49.560 --> 01:33:53.310

Rasham Nassar: Typically, what happens is sometimes Council members requests agenda items be added.

191

01:33:53.850 --> 01:34:06.390

Rasham Nassar: To future agendas or or the agenda for the following week outside of the Council meeting and the way that it helps the administration and myself and Deputy Mayor keep track of those individual requests is just to keep them on a list on a word document.

192

01:34:07.440 --> 01:34:13.890

Rasham Nassar: It is still incumbent upon the Council member that proposed that agenda item to them propose it to add to an agenda item.

193

01:34:14.190 --> 01:34:25.770

Rasham Nassar: During this time, so it's they're really not doing anything it's just it's a way for us it's a tool for us to keep track of the items that Council members are interested in potentially advocating for a spot on the future agenda.

194

01:34:27.450 --> 01:34:27.840

Christy Carr: Graham.

195

01:34:28.170 --> 01:34:29.010

Christy Carr: thanks for the reminder.

196

01:34:30.090 --> 01:34:31.050

Rasham Nassar: councilmember deeds.

197

01:34:31.440 --> 01:34:46.560

Joe Deets: yeah Thank you Mary i'm actually, thank you for bringing up the list because look at the list there was a mention of ethics meeting and we already had, we do have that scheduled on may 26 so it seems like we could take that off the list unless i'm missing something.

198

01:34:48.300 --> 01:34:55.020

Rasham Nassar: I think, is that referring to the council's follow up discussion coming out of those joint ethics board meetings.

199

01:34:55.500 --> 01:34:56.850

Joe Deets: If that's the case, then it stays.

200

01:34:57.690 --> 01:35:04.320

Rasham Nassar: yeah so it's again it's just just as a reminder to Council members that that will be coming to be scheduled to be scheduled and a future date.

201

01:35:04.740 --> 01:35:12.330

Rasham Nassar: And expectation is that, after we have that joint meeting that the Council will convene to potentially take action on making those programmatic changes.

202

01:35:13.410 --> 01:35:16.200

Rasham Nassar: After hearing the dialogue and recommendations from the board.

203

01:35:16.620 --> 01:35:17.520

Joe Deets: So thank you mayor.

204

01:35:17.640 --> 01:35:18.300

Joe Deets: Why represents.

205

01:35:18.960 --> 01:35:20.160

Rasham Nassar: Deputy Mayor had topless.

206

01:35:20.610 --> 01:35:30.060

Kirsten Hytopoulos: yeah That said, some sometimes there's things on here that we've all said, we want to come back that we can pull off and schedule right so, for example, we did at the last meeting because of the time sensitivity.

207

01:35:30.570 --> 01:35:39.210

Kirsten Hytopoulos: throw the plastics ordinance out a couple weeks so there's a spot if there's something ready to receive to receive that as an example.

208

01:35:39.690 --> 01:35:44.670

Kirsten Hytopoulos: I just wanted to point that out so sometimes there is something that we've all said what will receive it if it's if there's.

209

01:35:45.210 --> 01:35:56.190

Kirsten Hytopoulos: That will that will be then on a future agenda for a setting conversation like this anyway, just to like point out to to deputy i'm sorry to councilmember car.

210

01:35:56.670 --> 01:36:03.060

Kirsten Hytopoulos: And, one that would be particularly of interest to her that sometimes this one person, but sometimes it's also a majority of Council.

211

01:36:08.190 --> 01:36:11.550

Rasham Nassar: As there anything else for future agendas Council.

212

01:36:13.200 --> 01:36:23.310

Rasham Nassar: Okay, and I just, I just wanted just to confirm that we will be scheduling the ethics board appointments to next week's study session meeting so we've noted that.

213

01:36:24.420 --> 01:36:29.280

Rasham Nassar: Okay, if there's nothing else for future Council agendas, we will now move on into our agenda agenda.

214

01:36:30.480 --> 01:36:32.790

Rasham Nassar: Item eight presentations.

215

01:36:33.930 --> 01:36:43.500

Rasham Nassar: Eight as environmental, technical advisory committee presentation of the groundwater fact sheet and I believe we have some members of the tech committee joining us this evening.

216

01:36:51.330 --> 01:36:52.200

Rasham Nassar: Hello Charlie.

217

01:36:53.940 --> 01:36:55.200

Rasham Nassar: You can go ahead and unmute.

218

01:36:56.670 --> 01:36:58.650

Charlie Kratzer: Okay, so sharing my screen.

219

01:37:05.220 --> 01:37:06.300

Charlie Kratzer: There we go share screen.

220

01:37:09.510 --> 01:37:15.060

Rasham Nassar: Come on we're not seeing that i'm tracking there we go.

221

01:37:20.370 --> 01:37:21.120

Okay.

222

01:37:30.090 --> 01:37:34.770

Charlie Kratzer: So i'm trying to figure out how I can see you guys same time and.

223

01:37:41.700 --> 01:37:44.340

Charlie Kratzer: There we go bring it down.

224

01:37:46.140 --> 01:37:46.890

Charlie Kratzer: Over.

225

01:37:48.240 --> 01:37:51.660

Rasham Nassar: And then, Charlie if you could just broaden that screen so that i'm.

226

01:37:53.760 --> 01:37:57.360

Rasham Nassar: The expand button at the top right hand corner, for you.

227

01:37:58.260 --> 01:38:02.040

Charlie Kratzer: yeah well how do I see you guys if I if I do that.

228

01:38:04.050 --> 01:38:07.740

Rasham Nassar: That is a question for someone who knows more about him than I do.

229

01:38:08.550 --> 01:38:09.390

Charlie Kratzer: Okay, so.

230

01:38:09.660 --> 01:38:15.540

Rasham Nassar: If you go to view at the top portion of your screen top right hand portion of your screen, you might be able to adjust.

231

01:38:17.310 --> 01:38:18.450

Rasham Nassar: Your viewing options.

232

01:38:23.040 --> 01:38:26.340

Charlie Kratzer: Okay well you just want to see that, like that right.

233

01:38:28.380 --> 01:38:34.590

Rasham Nassar: Yes, and this this information that you're sharing right now on your screen is also attached to our agenda is that correct.

234

01:38:34.890 --> 01:38:35.940

Charlie Kratzer: Correct okay.

235

01:38:36.150 --> 01:38:37.320

Charlie Kratzer: Great um.

236

01:38:38.340 --> 01:38:40.920

Charlie Kratzer: Well Ellen actually is it attached or.

237

01:38:43.350 --> 01:38:47.130

Ellen Schroer (she/her): This version was distributed to counsel, but not attached to the agenda.

238

01:38:47.490 --> 01:38:48.060

Okay.

239

01:38:50.070 --> 01:38:59.400

Charlie Kratzer: So I sent out last night to y'all anyway, so I was trying to figure out how to deal with questions so if you have questions I guess just speak up since I can't really.

240

01:39:01.080 --> 01:39:01.920

Charlie Kratzer: can't really see you.

241

01:39:04.500 --> 01:39:13.350

Charlie Kratzer: Okay, so just some sort of some background on why there's the groundwater fact sheet and the ground water management plan process.

242

01:39:15.060 --> 01:39:28.920

Charlie Kratzer: Since more than happy you weren't weren't on Council at the time that this whole discussion was taking place it all started in 2016 and comprehensive plan with a high priority action item stating that.

243

01:39:30.570 --> 01:39:43.620

Charlie Kratzer: To adopt an island wide groundwater manager plan and then in April 2017 City Council requested a tack to analyze that the need for the plan to recommend a scope and and level of effort for development and plan.

244

01:39:45.300 --> 01:39:53.340

Charlie Kratzer: Then November 1 2018 he tax submitted our 32 page document to city council.

245

01:39:55.320 --> 01:40:00.780

Charlie Kratzer: With our recommendation, which was that both a ground war manager plan be developed.

246

01:40:02.160 --> 01:40:18.720

Charlie Kratzer: So he take he recommended that the copy start the process to develop a ground war management plan and we wrote the opinion that developing plan and maintaining the ongoing monitoring program is the best way to protect the vital water resource of the island.

247

01:40:20.130 --> 01:40:20.760

Charlie Kratzer: And then.

248

01:40:22.260 --> 01:40:42.690

Charlie Kratzer: We said we will come back a little bit later with more details on how it should be developed, including budgetary recommendations This just shows that the title page of our November 1 document which can be found on the new tech page on the colby website under white papers.

249

01:40:45.450 --> 01:40:55.890

Charlie Kratzer: So on November 19th 2018 we came back with our recommendations as far as budget and other details about how to develop a ground water management plan for the island.

250

01:40:57.300 --> 01:40:59.700

Charlie Kratzer: And just highlight a couple things here about how.

251

01:41:00.990 --> 01:41:05.790

Charlie Kratzer: The ground water management plan and kind of feeds into the Climate Action Plan and climate change.

252

01:41:06.750 --> 01:41:19.980

Charlie Kratzer: The climate impact assessment referencing the comprehensive plan establish that a primary concern climate changes, the impact of water resources, especially for a designated sole source for such as bainbridge island.

253

01:41:22.050 --> 01:41:22.530

Charlie Kratzer: And then.

254

01:41:23.640 --> 01:41:26.340

Charlie Kratzer: In 2015 2016 2017.

255

01:41:27.450 --> 01:41:42.090

Charlie Kratzer: The city Bainbridge Island contract with aspect to do some additional modeling rancid the usgs model to look at some additional scenarios for future growth and climate change and the result of that analysis.

256

01:41:43.140 --> 01:41:59.700

Charlie Kratzer: showed that there'll be sufficient groundwater to meet drinking water needs into the future well into the future, but it could come at the expense of a 40% reduction discharge of groundwater and surface waters on the island, which would impact streams of wetlands on the island.

257

01:42:01.230 --> 01:42:01.740

Charlie Kratzer: Excuse me.

258

01:42:03.540 --> 01:42:21.150

Charlie Kratzer: um so then about a week later November 27 is when City Council Dave approval to eat tech to develop and grow our fact sheet in advance of the ground water management plan process with the caveat at the time that it be run past or reviewed by copy staff and kp ud.

259

01:42:22.530 --> 01:42:22.860

Just.

260

01:42:24.060 --> 01:42:36.570

Charlie Kratzer: let you know that so then two years later we we finished our fourth page fact sheet, after many, many iterations we had a reviewed by kp ud usgs and and colby staff.

261

01:42:37.830 --> 01:42:48.570

Charlie Kratzer: And then February 18 after revising the groundwater fact sheet accordingly to based on based on the comments we approved a dance, as a committee.

262

01:42:49.650 --> 01:42:54.150

Charlie Kratzer: And that's where we are now, so this is our approved fact sheet.

263

01:42:55.290 --> 01:43:12.450

Charlie Kratzer: there's a lot of details in here, which I assume, most of you have had a chance to really look this over i'll just kind of hit some of the highlights we start off with server usgs definition of what is brown water, this information is taken from a website that they have, which is.

264

01:43:13.770 --> 01:43:21.720

Charlie Kratzer: kind of a user friendly school, you know pretty high school level information that they have on usgs.gov.

265

01:43:22.230 --> 01:43:37.320

Charlie Kratzer: faqs on water, so if you want to have a question about water, you know the faqs they have a lot of information on surface water groundwater biological resources, etc, you can build you so we're using the groundwater definition from their website.

266

01:43:38.790 --> 01:43:42.780

Charlie Kratzer: And then groundwater and bainbridge island so bainbridge island has.

267

01:43:43.920 --> 01:43:52.080

Charlie Kratzer: Five or some people say six aquifers, if you include the bedrock off prefer which produces very little water and also this.

268

01:43:52.770 --> 01:44:09.240

Charlie Kratzer: there's a permeable inner beds within a confining layer of pie, which also produces very little water so i'll be talking about just the four main aquifers which starting at the top, you have the bash on the purse Doc for so the aquifers are defined.

269

01:44:11.460 --> 01:44:21.360

Charlie Kratzer: By confining layers both on top and and in between the aquifers, you have confining layers of less permeable materials so on top of the bash on.

270

01:44:25.500 --> 01:44:27.000

Charlie Kratzer: Top of aka for you have the.

271

01:44:28.110 --> 01:44:44.040

Charlie Kratzer: The best shot till in various places on the island X quite a few places and then this light blue here is the PR shock prefer, which has a elevation from water tip from one table right ranges from 300 feet down to sea level.

272

01:44:45.240 --> 01:44:53.250

Charlie Kratzer: And then the sea level aquifers and lecture there's a combining layered in this sort of greenish color here is the the sea level, I prefer.

273

01:44:53.970 --> 01:45:03.030

Charlie Kratzer: which ranges from 200 feet above sea level and the 200 feet below sea level, then there's another confining layer and then next one down is the glacial marine.

274

01:45:03.630 --> 01:45:18.540

Charlie Kratzer: Which water table ranges from minus 500 feet below sea level two to 300 people cielo and then there's the deep aquifer, which is also referred to as the fletcher biographer let's times, which is down down here below and confining.

275

01:45:20.400 --> 01:45:21.630

Joe Deets: Early excuse me, sorry.

276

01:45:22.230 --> 01:45:24.270

Joe Deets: This is Joe I have a quick question because.

277

01:45:24.330 --> 01:45:26.730

Joe Deets: we're right looking at something that I have a question on.

278

01:45:27.600 --> 01:45:34.560

Joe Deets: I get the vertical axis feet adapt and goes, all the way to it looks like 1000 feet, if I.

279

01:45:34.590 --> 01:45:35.040

Charlie Kratzer: write it.

280

01:45:35.250 --> 01:45:38.730

Joe Deets: correctly, what is the horizontal i'm really kind of unclear.

281

01:45:39.180 --> 01:45:41.130

Charlie Kratzer: Sorry i've been to point that out so on the left is.

282

01:45:41.130 --> 01:45:49.260

Charlie Kratzer: Port orchard bay and underwriters Peters out, so this is a slice across pretty much the middle of bainbridge island going from west to east.

283

01:45:49.500 --> 01:45:50.250

Joe Deets: Okay, thank you.

284

01:45:50.520 --> 01:45:51.390

Charlie Kratzer: yeah sorry about that.

285

01:45:52.890 --> 01:45:53.970

Charlie Kratzer: Okay, so then below.

286

01:45:53.970 --> 01:45:55.950

Charlie Kratzer: The deeper you have another.

287

01:45:55.950 --> 01:45:58.470

Charlie Kratzer: Defining layered into bedrock then down the bottom.

288

01:46:01.980 --> 01:46:08.250

Charlie Kratzer: So 97% of the the pump well water on on favorites comes from three aquifers.

289

01:46:09.000 --> 01:46:23.550

Charlie Kratzer: It comes from the sea level, I mean comes from the purchase the sea level and the deep pocket for so not much usage of the glacial Marina aquifer so pretty much from now i'll be talking about the three offers that provide most of the water on the island.

290

01:46:24.600 --> 01:46:35.760

Charlie Kratzer: i'm also it's important to note that all the recharge water for the October 1 originates is precipitation as it and septic system returned close on the island, except for about 5%.

291

01:46:36.390 --> 01:46:52.680

Charlie Kratzer: That flows underneath portraiture Bay from kids have Peninsula to the sea level glycerin and demographers and i'll be the next illustrations actually shown those interconnections of those going underneath port orchard bay.

292

01:46:54.030 --> 01:47:09.960

Charlie Kratzer: This is just talking about how being retired sole source was designated as sole source Oxford, meaning that the Oxford supplies more more than 50% of the drinking water consumed in the area and that there's no no good alternative source of water available.

293

01:47:11.190 --> 01:47:25.770

Charlie Kratzer: So in this cross section it's also from another usgs report on the kids peninsula here we're going from clear creek right here in silver Dale to port orchard Bay to puget sound.

294

01:47:26.280 --> 01:47:35.520

Charlie Kratzer: So again, this is cutting through bainbridge island from west to east and here you can see, this right here is the.

295

01:47:37.260 --> 01:47:49.740

Charlie Kratzer: sea level aquifer which in some places is continuous and does connect right here it pinches out below portraiture bay and doesn't connect to the concept, but the next one down the.

296

01:47:52.050 --> 01:48:00.870

Charlie Kratzer: glacial marine Oxford, in this case does continue over to the kid sentiments and especially the deep pocket for.

297

01:48:02.130 --> 01:48:12.900

Charlie Kratzer: continue so the Oxford goes, in this case goes, all the way what's the somerdale underneath underneath portraiture bay and out underneath puget sound.

298

01:48:13.380 --> 01:48:23.340

Charlie Kratzer: So that means that there's potential for water from kids up to be flowing towards bainbridge island we pulling some of that water into our water supply.

299

01:48:23.820 --> 01:48:28.650

Rasham Nassar: Charlie sorry interrupt, but we have a number with his hand raised, I know you can't see those hand raise So if you.

300

01:48:28.650 --> 01:48:30.450

Rasham Nassar: promote your questions to the end.

301

01:48:30.810 --> 01:48:32.760

Charlie Kratzer: No, no, actually right now just.

302

01:48:33.360 --> 01:48:35.130

Charlie Kratzer: I guess just speak up since I can't see you.

303

01:48:35.640 --> 01:48:36.840

Rasham Nassar: But I councilmember pollock.

304

01:48:38.490 --> 01:48:41.430

Michael Pollock: You know, you were in a group, so I didn't really want to interrupt that.

305

01:48:44.160 --> 01:48:46.080

Michael Pollock: You can wait till the end if you want.

306

01:48:46.380 --> 01:48:46.860

Charlie Kratzer: No, no.

307

01:48:47.340 --> 01:48:53.520

Michael Pollock: Right now, the the quantification of how much water is coming.

308

01:48:54.570 --> 01:49:03.360

Michael Pollock: As returned from septic systems and relative to the precipitation so we got precipitation coming in we're pumping some of it back up.

309

01:49:03.630 --> 01:49:09.810

Michael Pollock: And then we're recharging that into the shallow ground waters, I just wanted to sort of how to order of magnitude and then.

310

01:49:10.320 --> 01:49:26.280

Michael Pollock: Have that you have those two numbers, the relative difference and then, also in terms of all the sewer water that we're pumping out into puget sound kind of how much is that relative to what we're we're getting on an annual basis that kind of thing.

311

01:49:26.580 --> 01:49:33.870

Charlie Kratzer: yeah okay well a little bit later on i'll be showing a water budget for bainbridge So the answer to the first question about septic systems.

312

01:49:34.380 --> 01:49:48.210

Charlie Kratzer: They provide like five to 10% of the recharge and precipitation is 85 to 90% and then the other 5% is coming from kits episode So the answer is five to 10% from septic systems.

313

01:49:51.180 --> 01:49:52.590

Charlie Kratzer: And the other question is.

314

01:49:52.590 --> 01:49:53.640

Charlie Kratzer: A little more.

315

01:49:55.560 --> 01:49:56.790

Charlie Kratzer: Maybe at the end here.

316

01:49:57.960 --> 01:50:10.500

Charlie Kratzer: Talk about the wastewater treatment, but i'm not entirely sure, but that is one of the recommendations is that we look and do tertiary treatment and recycling that water as a way to increase our supply of groundwater.

317

01:50:12.120 --> 01:50:23.790

Michael Pollock: Okay, then, and then just follow up on that it's five to 10% and Leonard because that's going to the shallow offers I wondered if there was some sort of sense of how much it's contributing to the.

318

01:50:24.420 --> 01:50:36.390

Michael Pollock: To the discharge surface water discharge ultimately that kind of feeds our streams and keeps our streams flowing and particularly in the in the summertime during the flow condition.

319

01:50:36.390 --> 01:50:45.480

Charlie Kratzer: Right so again i'll go into a little bit of water budget figure six if you just look at which you can look at figure six for a long time and.

320

01:50:46.800 --> 01:50:58.980

Charlie Kratzer: still have questions, but the the two entrepreneurs that that feed the surface water streams and streams and wetlands are the postdoc referring to the sea level aquifer which are.

321

01:50:59.400 --> 01:51:06.870

Charlie Kratzer: Obviously, the ones above sea level and above where the streams would be so the ground water will flow into the streams.

322

01:51:10.170 --> 01:51:14.160

Charlie Kratzer: So yeah they would contribute to to that.

323

01:51:16.140 --> 01:51:21.600

Charlie Kratzer: In you know similar proportions to what they are of the overall recharge to those two offers.

324

01:51:23.100 --> 01:51:23.520

Charlie Kratzer: Okay.

325

01:51:23.940 --> 01:51:24.870

Rasham Nassar: So remember deeds.

326

01:51:26.640 --> 01:51:31.290

Joe Deets: Thank you, I I tried I haven't really listened, but you answered it, but I have another question.

327

01:51:32.610 --> 01:51:37.830

Joe Deets: Relating to the occurrence of see watering intrusion.

328

01:51:39.090 --> 01:51:44.130

Joe Deets: Has there been any change in that occurrence increase.

329

01:51:45.150 --> 01:51:48.420

Joe Deets: We have any change in the occurrence of sea water intrusion.

330

01:51:48.690 --> 01:51:54.150

Charlie Kratzer: I don't think there has been much reported there's been a couple of dresses up by seabald.

331

01:51:55.320 --> 01:51:56.130

Charlie Kratzer: In the past.

332

01:51:57.360 --> 01:52:00.180

Charlie Kratzer: But I think, though, with the wells where they had That problem has been.

333

01:52:01.890 --> 01:52:04.110

Charlie Kratzer: For decommission deactivated so.

334

01:52:05.940 --> 01:52:07.620

Charlie Kratzer: they're not part of sampling anymore.

335

01:52:08.370 --> 01:52:10.650

Joe Deets: Okay, but on bainbridge at least you're saying.

336

01:52:10.920 --> 01:52:16.230

Charlie Kratzer: It yeah one of my recommendation is actually that we have more monetary wealth closer to this.

337

01:52:16.290 --> 01:52:18.810

Charlie Kratzer: To the shoreline because right now, a lot there's not a lot of.

338

01:52:18.840 --> 01:52:24.930

Charlie Kratzer: Monitoring club really close to the shoreline where you would see more of the salt water intrusion okay.

339

01:52:24.960 --> 01:52:25.410

Joe Deets: Thank you.

340

01:52:25.770 --> 01:52:30.390

Charlie Kratzer: Okay, so yeah this next slide is about the there's a graphic about sea water intrusion.

341

01:52:31.830 --> 01:52:33.570

Charlie Kratzer: I think you all know what what that is.

342

01:52:34.920 --> 01:52:51.720

Charlie Kratzer: it's when you move the interface by by pumping more than and so here's a here's a well that that's just pumping fresh fresh groundwater here's a well that's that's deeper and it's forcing the interface in one and it's pulling in salt water so that's at sea water intrusion there.

343

01:52:53.280 --> 01:53:01.620

Charlie Kratzer: And that's where it's important to have more monitoring was closer to to the shoreline because that's where obviously you're going to see more sea water intrusions close to shoreline.

344

01:53:03.120 --> 01:53:08.940

Charlie Kratzer: Okay, so next is the usgs models applied to bainbridge island so back in.

345

01:53:10.980 --> 01:53:24.270

Charlie Kratzer: must be in 2005 through 11 usgs worked on the ground water model for for bainbridge island that city paid for, and the report came out in 2011.

346

01:53:24.930 --> 01:53:28.680

Charlie Kratzer: it's really great resource for for looking at bainbridge island groundwater.

347

01:53:29.430 --> 01:53:40.860

Charlie Kratzer: than American More recently, they applied that model to all the kids at county and they had some improvements in the model, particularly in the recharge the way they they came up with recharge number for for bainbridge island.

348

01:53:41.610 --> 01:53:53.190

Charlie Kratzer: So both those models are really relevant to to looking at different scenarios for for bainbridge island as far as development and climate change, and what impacts us might have into the future.

349

01:53:54.270 --> 01:53:55.350

Charlie Kratzer: Both models.

350

01:53:56.880 --> 01:54:11.880

Charlie Kratzer: Use the public available industry standard MOD flow model which is available at this website, right here so wherever possible, we have a website as a reference because that's where most people go these days is to a website.

351

01:54:12.900 --> 01:54:14.850

Charlie Kratzer: So here, you can it's a fairly.

352

01:54:17.460 --> 01:54:22.140

Charlie Kratzer: More more basic way to to understand the model model and.

353

01:54:23.610 --> 01:54:31.110

Charlie Kratzer: Understand basically it's a modular model that you can add various components to to look at streamflow groundwater interactions.

354

01:54:33.090 --> 01:54:56.400

Charlie Kratzer: You can put in lots of different features and and in zoom in on those so this figure right here figure five shows the grid that was used so basically brow our models are set up a grid and this grid is eight 800 feet by 800 feet, so the entire island is total of 139 columns.

355

01:54:57.870 --> 01:55:02.250

Charlie Kratzer: And 197 rows to to cover bainbridge island.

356

01:55:04.290 --> 01:55:12.300

Charlie Kratzer: And some of the features here are every place along the shoreline and along the stream you see blue and that's where.

357

01:55:13.620 --> 01:55:22.950

Charlie Kratzer: ground water flows to surface water so it's either flowing out the puget sound or exploring to a string So those are specified drains into model.

358

01:55:24.300 --> 01:55:32.670

Charlie Kratzer: The next thing, this is a looking at the surface layer right here, and it shows the absence or presence of the bash on till so.

359

01:55:33.270 --> 01:55:41.460

Charlie Kratzer: Where there's not bash on till it's like this orange color and where there is it's more the yellowish more pale color.

360

01:55:42.090 --> 01:55:52.680

Charlie Kratzer: So there's a lot of bash on till at the surface on bainbridge island, as you all know and gas awake right here in the blue different color blue is represented as a.

361

01:55:53.520 --> 01:56:03.480

Charlie Kratzer: What they call a general had recharge source so that's where surface water it's always flowing to the groundwater so guys have like acts as a recharge sort of basic for groundwater.

362

01:56:05.130 --> 01:56:10.980

Charlie Kratzer: So this also has vertical layers has 33 vertical layers from land surface to the bedrock.

363

01:56:12.060 --> 01:56:20.640

Charlie Kratzer: So showing the different soil types and information that different different layers as you go down confining layers and aquifer layers.

364

01:56:21.510 --> 01:56:41.550

Charlie Kratzer: So model inputs are monthly precipitation soils information surface water features streamflow wells and monthly pumping measured monthly water levels outputs from the model is simulated monthly water levels and the way that the model calibrates is by.

365

01:56:43.620 --> 01:56:56.190

Charlie Kratzer: matching up the simulated water novels with the measured water levels and you want to get as good of a fit as possible underwater levels so you just your model inputs until there's a optimize match of the water level so that's.

366

01:56:56.760 --> 01:57:01.860

Charlie Kratzer: Basically what you're tweaking your very simply, to try and match water levels it's as best as you can.

367

01:57:03.300 --> 01:57:15.570

Charlie Kratzer: And now here's the figure six, which shows a water budget so basically shows that the four main offers are interconnected so, even though they have confining layers in between them and above them.

368

01:57:17.070 --> 01:57:30.450

Charlie Kratzer: There is a certain amount of flow to get sort of dividing players and there's also lateral flow coming in and there's flow going out like to the streams and to puget sound so here in the.

369

01:57:31.620 --> 01:57:37.080

Charlie Kratzer: there's also a time like So if you look at the recharge numbers they look pretty small, because this is.

370

01:57:37.590 --> 01:57:43.050

Charlie Kratzer: This water balance is done on an annual basis, so it's based on one year, so what what is applied.

371

01:57:43.530 --> 01:57:53.550

Charlie Kratzer: To the surface say by precipitation what calls on surface how much of that water makes it down to either the first off before or sea level lock for that one year time frame.

372

01:57:54.210 --> 01:58:00.330

Charlie Kratzer: And a lot of it doesn't because ground water flows at lots number range, a lot of it takes more than a year to get there.

373

01:58:00.840 --> 01:58:13.320

Charlie Kratzer: So the total recharge would be a combination of what's in the Green and what's in the blue here to groundwater flow that stuff that's been making its way down, but it may take 2345 years to get there, so.

374

01:58:13.980 --> 01:58:20.250

Charlie Kratzer: that's anyway in green hears the recharge from the surface, that makes it to the perch talk for and sea level aquifer.

375

01:58:21.330 --> 01:58:29.910

Charlie Kratzer: In the blue is groundwater flow meter lateral or or or vertical into and out of each of these are prefers and down to the next aquifer.

376

01:58:31.170 --> 01:58:40.560

Charlie Kratzer: into red is the pumping from that particular aquifer So you can see, the main pumping is from the sea level aquifer here 1.1 this is thousands of acres per year.

377

01:58:40.950 --> 01:58:49.590

Charlie Kratzer: And the deep aqua for those are the main two where most of the pumping the curse and then in Brown is outflow to.

378

01:58:50.520 --> 01:59:10.110

Charlie Kratzer: Two streams to the surface waters on the island and in purple is outflows submarine outflows to puget sound and that outflow helps to keep the sea water fresh water interface offshore so CC water treatment so that's important to force out the salt water with with fresh water.

379

01:59:13.020 --> 01:59:23.790

Charlie Kratzer: So one thing important here is that you know close to 100% of the input is recharged from precipitation and septic systems.

380

01:59:25.290 --> 01:59:37.860

Charlie Kratzer: But only about 10% of the outflow is groundwater pumping most of the outflow goes to surface streams and to puget sound so because of.

381

01:59:38.760 --> 01:59:49.710

Charlie Kratzer: So, and then be putting numbers on that so pumping 10% discharge the surface waters is 50 to 60% of the outflow and discharge the puget sound is 30 to 40%.

382

01:59:50.280 --> 01:59:59.610

Charlie Kratzer: So you see a lot more that goes goes out as discharge compared to what is being pumped by the wells on the island and because of that.

383

02:00:01.200 --> 02:00:09.840

Charlie Kratzer: simulation simulations show that the route to recharge has a much larger effect on water levels and change so chasing ground or recharge.

384

02:00:10.260 --> 02:00:21.300

Charlie Kratzer: Has a bigger effect than changes in groundwater pumping since I was hoping to 10% of the outflow and recharges basically 100% of the input, so if you change that recharge.

385

02:00:22.410 --> 02:00:30.450

Charlie Kratzer: It by 15% which that they ran scenario for kids so let's let's So if you change that by reducing by 15%.

386

02:00:31.890 --> 02:00:43.980

Charlie Kratzer: You reduced by the discharge two streams by 18% so it's almost a direct correlation between the reduction in in and recharge and the outflow to streams.

387

02:00:44.790 --> 02:00:51.360

Charlie Kratzer: Whereas the 15% increase in pumping only resulted in ballast point 3% decrease in streamflow.

388

02:00:52.170 --> 02:01:00.630

Charlie Kratzer: So the bigger factors really the recharge number, so what you want to do is increase the supply of water so by recycling water.

389

02:01:01.140 --> 02:01:17.760

Charlie Kratzer: tertiary treatment, the wastewater reclaimed water whatever you can do to increase the recharge of water and increase water levels on the island, because that has a bigger impact and then increases equivalent increases in in in pumping.

390

02:01:19.410 --> 02:01:24.480

Charlie Kratzer: Okay, so finally importance of monitoring, so this shows what's currently being monitored.

391

02:01:25.650 --> 02:01:45.630

Charlie Kratzer: And this is from the different aquifers with red being the perched and etc orange being from the deepak buffer and there's a total of 75 wells that are being monitored here and 46 days or by the city's engineering group, like primarily Christian bird.

392

02:01:46.890 --> 02:01:55.980

Charlie Kratzer: And seminar by the city on em and 22 and buy gpu D, so this includes kp monitoring well as well.

393

02:01:58.380 --> 02:02:05.970

Charlie Kratzer: So monitors important because changes in water levels over the long term, can provide an indication of potential issues such as.

394

02:02:06.360 --> 02:02:15.780

Charlie Kratzer: Water availability, if you see one another's dropping and you some your wells might be drying up there's concerns over long term viability of pumping from solar wells.

395

02:02:16.530 --> 02:02:32.250

Charlie Kratzer: See water intrusion and other issue so changes and water levels over long term are important to look at We recommend that that this monitor be continued and expanded to to near shore area, so there be more monitoring.

396

02:02:33.450 --> 02:02:38.280

Charlie Kratzer: Like up here near shore and it's important to monitor the same time, a year.

397

02:02:40.410 --> 02:02:53.820

Charlie Kratzer: from year to year, to look at long term trends, because there's a sort of a cyclical change in water level, so the highest levels are using the spring after you've had the rains and not much pumping for irrigation for outdoor use.

398

02:02:54.420 --> 02:03:09.270

Charlie Kratzer: And the lowest levels are using the fall that you've been through summer, with very little precipitation but more pumping for outdoor waters, so you want to monitor in the fall and in the spring from year to year, to look at changes in long term trends.

399

02:03:11.910 --> 02:03:13.410

Rasham Nassar: As a question has a question.

400

02:03:13.680 --> 02:03:13.980

yeah.

401

02:03:15.000 --> 02:03:15.240

Joe Deets: Oh.

402

02:03:16.260 --> 02:03:16.830

Joe Deets: Let me.

403

02:03:18.390 --> 02:03:21.360

Joe Deets: Sorry, Charlie This is just this is really.

404

02:03:22.620 --> 02:03:30.840

Joe Deets: fascinating I mean I know virtually nothing in some ways, but this is really so many why I have all these questions, but no it's very helpful so.

405

02:03:31.560 --> 02:03:43.050

Joe Deets: fascinating, you said that the recharge capabilities of the island or are even more important than the pumping that happens, from what you're saying.

406

02:03:43.320 --> 02:03:49.320

Joe Deets: So this helps us in a policy perspective to what can we do to increase our recharge.

407

02:03:50.580 --> 02:03:52.080

Joe Deets: But also you in this.

408

02:03:53.430 --> 02:03:57.480

Joe Deets: document, there was a reference to an aquifer conservation zones.

409

02:03:57.750 --> 02:04:06.480

Joe Deets: Right I didn't see what that act what what would that look like what would an awkward Oxford conservation zone look like.

410

02:04:07.620 --> 02:04:08.070

Charlie Kratzer: A.

411

02:04:09.600 --> 02:04:13.350

Charlie Kratzer: You know, I think that would be something along the lines of a.

412

02:04:14.670 --> 02:04:15.300

Charlie Kratzer: You know just.

413

02:04:16.320 --> 02:04:17.940

Charlie Kratzer: a protected area that's.

414

02:04:20.070 --> 02:04:37.650

Charlie Kratzer: What do they call those where they do forced recharge and i'm not talking about injecting i'm just on the surface, where you apply water to a basin and basin with printable soils and just doesn't need that base and as a high recharge area.

415

02:04:39.090 --> 02:04:45.090

Charlie Kratzer: Specifically, I mean I wouldn't recommend injection because people talk about one way to do is inject water.

416

02:04:45.510 --> 02:04:57.690

Charlie Kratzer: But then you create one quality problems by doing that directly, because the soils do a lot of filtering of water before it gets down to the water table and you're getting rid of that filtration if you inject water.

417

02:05:00.330 --> 02:05:04.920

Charlie Kratzer: So just be a recharge based on that I think that's what we're talking about here on.

418

02:05:05.190 --> 02:05:05.940

Joe Deets: Okay, thanks.

419

02:05:05.970 --> 02:05:06.240

Charlie Kratzer: Thank you.

420

02:05:06.270 --> 02:05:07.020

Charlie Kratzer: not entirely sure.

421

02:05:08.460 --> 02:05:11.190

Joe Deets: Anything I you piqued my interest so.

422

02:05:11.310 --> 02:05:11.760

Charlie Kratzer: So.

423

02:05:12.690 --> 02:05:14.130

melanie keenan: I can add to that.

424

02:05:14.400 --> 02:05:15.780

Charlie Kratzer: yeah good really.

425

02:05:16.110 --> 02:05:26.670

melanie keenan: High so and that goes along with the sole source Christine office there was a put forward since we're the only sole source awkward for island URBAN.

426

02:05:27.540 --> 02:05:35.820

melanie keenan: In the state of Washington put together this idea of aqua for conservation zones and you could even think in terms of parks.

427

02:05:36.570 --> 02:05:51.180

melanie keenan: But also areas that have high recharge on the island that have been geologically identified and then to consider when you're developing the island, how much green spaces are you leaving throughout the island to help promote recharge.

428

02:05:52.830 --> 02:05:53.100

Right.

429

02:05:54.660 --> 02:05:55.110

Charlie Kratzer: Okay.

430

02:05:56.310 --> 02:05:58.230

Charlie Kratzer: So another thing about that.

431

02:06:00.420 --> 02:06:09.240

Charlie Kratzer: recharge versus pumping is recharges the the thing that's going to be, I guess, most directly impacted by climate change.

432

02:06:09.750 --> 02:06:22.710

Charlie Kratzer: And the projection for climate change for this area is longer warmer drier summers but, overall pretty much the same amount of rainfall on an annual basis, but more intense.

433

02:06:23.460 --> 02:06:29.340

Charlie Kratzer: Storms in the wintertime and with more intensity storms more of that is going to run off.

434

02:06:29.880 --> 02:06:46.830

Charlie Kratzer: In the puget sound directly and not unless will infiltrate than having a slow kind of misty soaking rain over over long periods of time, so there's potential for a big reduction in the the natural recharge.

435

02:06:48.450 --> 02:06:56.070

Charlie Kratzer: On the island so that's where it becomes important to look at ways to augment our recharge through reusing water.

436

02:06:58.260 --> 02:06:59.310

Charlie Kratzer: Rain gardens.

437

02:07:00.780 --> 02:07:03.870

Charlie Kratzer: reclaiming wastewater it cetera.

438

02:07:05.100 --> 02:07:23.700

Charlie Kratzer: So um yeah we had a couple of recommendations in your vendor monitoring program about that and incentivize the reuse water coordinate with the Climate Action Plan, because you know there's a lot of interplay between climate change and in the groundwater resource on the island.

439

02:07:25.800 --> 02:07:43.260

Charlie Kratzer: Okay, and then last thing is so I kept mentioning this issue about the potential for impacts on surface waters and that seems to be like the one big concern for bainbridge island it's more the impact on aquatic ecosystems and stream waters and wetlands.

440

02:07:44.460 --> 02:07:59.130

Charlie Kratzer: streams of weapons on the island, more so than will be enough drinking water in the future and turns out that this is a real become a very global issue and there's this uh.

441

02:08:00.360 --> 02:08:08.100

Charlie Kratzer: This hydrologist over in the Netherlands who's published a lot of stuff looking at using a global groundwater model.

442

02:08:09.060 --> 02:08:19.380

Charlie Kratzer: which you know, obviously isn't going to have be fine tune like like a groundwater model for bainbridge island, but it can give you sort of some some big generalities, and her big.

443

02:08:20.100 --> 02:08:29.310

Charlie Kratzer: conclusion was almost 20% of the regions where ground water is pumped currently suffer from a reduction of river flow putting ecosystems at risk.

444

02:08:30.120 --> 02:08:38.760

Charlie Kratzer: And that they expected by 2050 more than half of the regions with groundwater pumping will not be able to maintain healthy ecosystems.

445

02:08:39.390 --> 02:08:45.810

Charlie Kratzer: And also, it only takes a small drop in groundwater levels to cause these reductions in river in stream flows.

446

02:08:46.740 --> 02:08:51.330

Charlie Kratzer: Because, where you have the interconnection the to small drop may be the only.

447

02:08:51.990 --> 02:09:12.780

Charlie Kratzer: source of flow based flow to that that Stream is just as one foot difference between the stream level and water level, so if you dropped out water level one foot that stream loses its base flood and dries up in summer where it went to ordinary so that, let me see oh you guys can choose.

448

02:09:14.100 --> 02:09:18.870

Charlie Kratzer: Okay, so that's it any other questions, I know I went way over.

449

02:09:20.940 --> 02:09:27.960

Rasham Nassar: I think Council members will have questions trolley but Would you mind i'm not sharing your screen anymore, so we can see everybody in the room.

450

02:09:29.970 --> 02:09:33.060

Rasham Nassar: yeah just n screen share something somewhere.

451

02:09:34.410 --> 02:09:34.950

where's that.

452

02:09:36.360 --> 02:09:37.260

Rasham Nassar: I think it's at the top.

453

02:09:37.590 --> 02:09:44.700

Charlie Kratzer: Also top now okay pause share, about ensure we go stop share.

454

02:09:45.360 --> 02:09:47.250

Charlie Kratzer: There we go great okay.

455

02:09:47.640 --> 02:09:48.780

Rasham Nassar: councilmember fan right Johnson.

456

02:09:49.920 --> 02:09:53.520

Brenda Fantroy-Johnson: Thank you, Charlie for giving us all of that information I.

457

02:09:54.600 --> 02:09:56.190

Brenda Fantroy-Johnson: I didn't know that.

458

02:09:57.450 --> 02:10:13.740

Brenda Fantroy-Johnson: And I think that my understanding was that the pumping was the problem, so what, if I understand you correctly, the problem is not us running out of water it's mainly us messing up the ecosystems that we already have.

459

02:10:15.270 --> 02:10:18.390

Charlie Kratzer: yeah problem is more affecting the.

460

02:10:19.650 --> 02:10:26.910

Charlie Kratzer: The aquatic ecosystem so depend on surface water so wetlands and strings and whatnot on the surface so.

461

02:10:27.270 --> 02:10:40.380

Charlie Kratzer: I mean it's got a little bit counterintuitive that the biggest impact of groundwater is going to be on surface water, but the two are definitely linked in the summertime the only reason that are surface water and it's because of groundwater.

462

02:10:41.550 --> 02:10:42.810

Charlie Kratzer: flowing to the space flow.

463

02:10:43.500 --> 02:10:46.740

melanie keenan: So we also have to be careful about.

464

02:10:46.950 --> 02:10:50.130

melanie keenan: During our dry season over pumping well so wells.

465

02:10:50.580 --> 02:10:52.050

melanie keenan: Because wells have gone.

466

02:10:52.380 --> 02:11:03.360

melanie keenan: dry and and have been big production wells have been decommissioned so it's really important to keep the well healthy, especially along the coastlines.

467

02:11:04.530 --> 02:11:06.990

melanie keenan: So we don't invite sea water intrusion.

468

02:11:07.260 --> 02:11:08.610

melanie keenan: So pumping still as a.

469

02:11:08.610 --> 02:11:09.480

factor.

470

02:11:10.680 --> 02:11:14.250

melanie keenan: But you're correct that the recharge is the most important.

471

02:11:16.140 --> 02:11:27.210

Brenda Fantroy-Johnson: yeah I was thinking more about because i'm like and how that's a big reclaim spot for us and how you know, I guess, I wonder what else can we do.

472

02:11:28.560 --> 02:11:31.140

Brenda Fantroy-Johnson: You know, to to help the process I guess.

473

02:11:31.500 --> 02:11:40.290

Charlie Kratzer: So this is a kickoff to a two to three year effort now to develop the groundwater manager plan for the island, so this is just sort of setting.

474

02:11:40.650 --> 02:11:55.110

Charlie Kratzer: A starting point is basic sort of facts of what we know, right now, but it's The thing is, four days after we approved our groundwater fact sheet the hydrogeologist who's going to be working on this was hired so.

475

02:11:55.860 --> 02:11:56.250

Brenda Fantroy-Johnson: and

476

02:11:56.520 --> 02:12:06.570

Charlie Kratzer: You guys say Maureen waylon you guys probably there was a memo one city council, a little while ago, but so she's working on and.

477

02:12:08.970 --> 02:12:11.460

Charlie Kratzer: it's the process will be kicking off it.

478

02:12:12.600 --> 02:12:13.920

Charlie Kratzer: Especially this summer.

479

02:12:16.500 --> 02:12:31.830

melanie keenan: And we've been working with Ellen to distribute this to the citizens on the island, because the more informed, they are that's one of the primary reasons, a good reason for you know designating bainbridge as a you know, an essay.

480

02:12:33.210 --> 02:12:42.780

melanie keenan: Is that you can educate the public by educating the public, we can get a lot further with our resources and protect them because groundwater resources are vulnerable.

481

02:12:45.090 --> 02:12:48.450

Charlie Kratzer: yeah it's always vulnerable when you live on an island surrounded by salt water.

482

02:12:49.710 --> 02:12:52.260

Charlie Kratzer: you're dependent on rail our resource.

483

02:12:52.560 --> 02:13:02.340

melanie keenan: yeah so we were looking at putting the announcement on the the homepage of the city website with a link to somewhere on the on the.

484

02:13:02.850 --> 02:13:11.280

melanie keenan: city website and then Ellen was going to help us also do the city managers report, one time.

485

02:13:11.550 --> 02:13:21.720

melanie keenan: And you know we've talked about some other things, but we have to finalize those later and and look at him but putting it on the website in the city managers, is a good start to educating the Community.

486

02:13:22.110 --> 02:13:28.320

Charlie Kratzer: yeah putting it putting it on say yeah the city website is she said yeah what discuss a lot of options rebel here recently.

487

02:13:30.240 --> 02:13:30.960

Rasham Nassar: Deputy Mayor.

488

02:13:32.280 --> 02:13:43.020

Kirsten Hytopoulos: yeah well and certainly in the in the communications we've had from you recently Charlie it's just so exciting it's so great to hear how passionate you guys are about this this issue that we know is so important to Community and always has been.

489

02:13:43.380 --> 02:13:52.620

Kirsten Hytopoulos: and, hopefully, now that you have specialist working with you guys can develop something like this for the whole Community do some sort of a forum for the Community, I think it would be well attended so.

490

02:13:53.220 --> 02:13:59.940

Kirsten Hytopoulos: Thank you for this it merited a two hour presentation and hopefully at some point we'll have a Community forum in the future.

491

02:13:59.970 --> 02:14:01.350

Kirsten Hytopoulos: So thank you for bringing that to.

492

02:14:01.470 --> 02:14:03.330

Charlie Kratzer: US I shall we could actually do it in person.

493

02:14:03.450 --> 02:14:04.680

Kirsten Hytopoulos: yeah exactly maybe.

494

02:14:04.710 --> 02:14:06.240

Kirsten Hytopoulos: Just about whenever there's no other.

495

02:14:06.480 --> 02:14:12.390

Kirsten Hytopoulos: outdoor summer stuff maybe when we all come back together, you can have some a big before right yeah.

496

02:14:12.480 --> 02:14:12.870

Okay.

497

02:14:16.260 --> 02:14:17.700

Rasham Nassar: Any of the Council member comments.

498

02:14:20.100 --> 02:14:20.430

Charlie Kratzer: Okay.

499

02:14:20.730 --> 02:14:39.450

Rasham Nassar: I don't see anything Charlie and Melanie I just want to say thank you so much for putting that together, I know firsthand how much work and time it took for y'all to produce that and how dedicated you are committed, you are to protecting and preserving the islands water resources.

500

02:14:41.280 --> 02:14:48.270

Rasham Nassar: As a former liaison to the committee I witness the evolution of that document, and that must have been three years ago that work on that started.

501

02:14:48.480 --> 02:14:49.920

Charlie Kratzer: It was like yeah.

502

02:14:50.520 --> 02:14:54.270

Rasham Nassar: kick off to the ground, work on the water management plan which is finally getting started.

503

02:14:55.350 --> 02:14:57.900

Rasham Nassar: So I know that the Community is really happy and pleased with that.

504

02:14:58.260 --> 02:14:59.850

Rasham Nassar: Yes, thank you both for being here.

505

02:15:00.090 --> 02:15:00.480

Charlie Kratzer: Thank you.

506

02:15:00.810 --> 02:15:03.840

Rasham Nassar: know more councilmember comments, I think we can move on.

507

02:15:04.140 --> 02:15:05.310

Charlie Kratzer: Okay, thank you hey.

508

02:15:05.370 --> 02:15:06.930

melanie keenan: Thank you counsel for your time.

509

02:15:07.620 --> 02:15:07.980

Charlie Kratzer: bye bye.

510

02:15:11.100 --> 02:15:20.250

Rasham Nassar: Okay Council we are pretty significantly behind schedule, but we will move on here to Item nine in our agenda, which is a public hearing.

511

02:15:21.270 --> 02:15:33.240

Rasham Nassar: Nine a public hearing on ordinance number 2002 one dash one for extending small wireless facilities design standards interim official control looks like we have planning.

512

02:15:35.400 --> 02:15:36.480

Rasham Nassar: presenting this.

513

02:15:37.980 --> 02:15:38.820

Rasham Nassar: Item this evening.

514

02:15:39.540 --> 02:15:46.650

Ellen Schroer (she/her): So I think that Dave Greek is here, and will be promoted in just a moment he is our current planning manager and ready to introduce this item.

515

02:16:00.780 --> 02:16:06.360

Christine Brown: mayor, this is Christine I did not see him in the attendee list, I will contact him by email.

516

02:16:08.520 --> 02:16:08.940

Okay.

517

02:16:10.260 --> 02:16:12.240

Joe Levan: Council, if you like, I get there just yet them.

518

02:16:12.660 --> 02:16:16.560

Rasham Nassar: That would be great so the Attorney just given that we are really behind schedule, yes.

519

02:16:16.920 --> 02:16:26.250

Joe Levan: Okay, so this is a, this is the public hearing for the potential extension of the interim control related to smaller cities.

520

02:16:26.700 --> 02:16:43.650

Joe Levan: As as you've seen in your Council packet from the previous meeting, two weeks ago, the Council had to set the public hearing this relates to the interim control that is that has been in place to allow the city to regulate smaller was facilities, while it considers.

521

02:16:45.330 --> 02:16:54.120

Joe Levan: Amending those regulations based on a lot of input from the planning Commission so planning Commission and specific recommendations related to.

522

02:16:56.580 --> 02:17:06.150

Joe Levan: Significantly related to what's happening in kids have county and regulations of the county has adopted, and we had an outside outside counsel and outside consultants.

523

02:17:06.810 --> 02:17:11.640

Joe Levan: Working the city worked with on this it's in the planning Commission came up with some recommendations are a little bit.

524

02:17:12.150 --> 02:17:20.190

Joe Levan: Different than what was recommended by our outside counsel, but we want to take a hard look at those recommendations in the planning Commission.

525

02:17:20.580 --> 02:17:28.410

Joe Levan: And what's happening and kiss up county and see if we can do some more due diligence, to see how those regulations have worked for the county.

526

02:17:28.740 --> 02:17:36.840

Joe Levan: And if those can work potentially for the city, based on the planning commission's recommendations, because we take those those recommendations very seriously, so the staff.

527

02:17:37.470 --> 02:17:45.120

Joe Levan: Seeking additional time to do that due diligence which we're in the midst of, and this would extend the interim control for six months.

528

02:17:45.750 --> 02:17:51.240

Joe Levan: And maybe wouldn't take that long to get this done with, and if we get done earlier we'd bring it back to you to to to.

529

02:17:51.660 --> 02:17:57.240

Joe Levan: To bring those new regulations to you that would then replace the internal control, so the public hearing is related to ordinance number.

530

02:17:57.600 --> 02:18:11.670

Joe Levan: 2021 14 again you've seen two weeks ago to put the public hearing draft, and that would extend the interim control, as it is the only difference would be, it would be for six more months from how it's always been in place already, and it started.

531

02:18:13.140 --> 02:18:25.770

Joe Levan: Initially back through word in summer 2019 50s so with that if there's any questions I can take those, but I can also take questions if you want to take to the public hearing to get public comment, and then we can follow from there.

532

02:18:28.710 --> 02:18:31.920

Rasham Nassar: Okay, thank you very much for the introduction city attorney I will now.

533

02:18:31.950 --> 02:18:35.340

Rasham Nassar: Open the public hearing on ordinance number 2002 one.

534

02:18:35.580 --> 02:18:36.570

Rasham Nassar: dash one for.

535

02:18:38.610 --> 02:18:39.630

Rasham Nassar: members of the public.

536

02:18:39.690 --> 02:18:44.550

Rasham Nassar: That would like to issue comment at this time, please raise your hand.

537

02:18:50.760 --> 02:18:57.120

Rasham Nassar: Okay, seeing none, I will not close the public hearing on ordinance number 2021 dash one for.

538

02:18:59.250 --> 02:19:00.270

Rasham Nassar: Council members.

539

02:19:05.340 --> 02:19:06.600

Rasham Nassar: councilmember fan right Johnson.

540

02:19:07.620 --> 02:19:10.410

Brenda Fantroy-Johnson: um I can make the motion great.

541

02:19:11.580 --> 02:19:15.570

Brenda Fantroy-Johnson: I moved to approve ordinance number 2021 dash 14.

542

02:19:18.210 --> 02:19:21.600

Rasham Nassar: councilmember pollock second set motion or any discussion on that motion.

543

02:19:23.820 --> 02:19:25.290

Rasham Nassar: All those in favor please say Aye.

544

02:19:28.470 --> 02:19:29.100

Rasham Nassar: opposed.

545

02:19:29.730 --> 02:19:31.170

Rasham Nassar: That motion passes unanimously.

546

02:19:32.910 --> 02:19:35.610

Rasham Nassar: we're moving on in our agenda now Council to.

547

02:19:45.000 --> 02:19:45.660

Rasham Nassar: Item.

548

02:19:47.430 --> 02:20:08.070

Rasham Nassar: 10 unfinished business I didn't send a ordinance number 2002 one dash 07 amending the tree and vegetation chapters of the municipal code for the landmark tree ordinance work plan and here again we have planning scheduled to present Oh, that we have our city arborist with this evening.

549

02:20:08.430 --> 02:20:12.030

Rasham Nassar: Good evening Council thing i'll share my screen here.

550

02:20:13.710 --> 02:20:15.270

Nick Snyder (COBI Arborist): short presentation.

551

02:20:40.800 --> 02:20:54.180

Nick Snyder (COBI Arborist): Good evening Council i'm here tonight to present ordinance 2021 dot 07 which amends the tree and vegetation chapters and a civil code for the landmark tree ordinance work plan.

552

02:20:56.760 --> 02:21:08.130

Nick Snyder (COBI Arborist): So just for a little bit of background the landmark tree ordinance was first adopted in 2018 as a response to a Community need to protect tree large trees on the island.

553

02:21:09.960 --> 02:21:24.120

Nick Snyder (COBI Arborist): And, as a result of that work plan, there were some inadequacies identified in our tree code so City Council directed the city to contracted with a team of consulting arborists and late 2018.

554

02:21:25.200 --> 02:21:30.270

Nick Snyder (COBI Arborist): to review our tree codes and provide some recommendations on how we could update our tree code.

555

02:21:31.680 --> 02:21:38.400

Nick Snyder (COBI Arborist): In May 2019 they presented that to city council and there was a robust discussion around the about their proposal.

556

02:21:40.200 --> 02:21:48.780

Nick Snyder (COBI Arborist): The end of which City Council directed city staff to move forward with three action items, one being to hire a single point of contact for tree related issues.

557

02:21:49.530 --> 02:22:09.030

Nick Snyder (COBI Arborist): second being to put together an ordinance that would revise chapter 1618 1815 and 1632 which the landmark tree ordinance to improve readability and remove outdated terminology and just an overall update of the code.

558

02:22:10.200 --> 02:22:21.180

Nick Snyder (COBI Arborist): In February 2020 city staff came to City Council to present a proposal and city council blessed as we move forward with putting together an ordinance.

559

02:22:22.560 --> 02:22:27.120

Nick Snyder (COBI Arborist): and work with planning Commission over the course of five meetings.

560

02:22:28.260 --> 02:22:29.010

Nick Snyder (COBI Arborist): and had a.

561

02:22:31.080 --> 02:22:42.840

Nick Snyder (COBI Arborist): public hearing at the end of December of last year, which brings us to today after that public hearing a planning Commission recommended that the ordinance before to city council for your consideration.

562

02:22:43.920 --> 02:22:47.640

Nick Snyder (COBI Arborist): So this responds to city council's directions.

563

02:22:49.170 --> 02:23:02.250

Nick Snyder (COBI Arborist): By seeking to fortify and simplify some of the sections of bainbridge island tree and vegetation regulations by removing outdated practices and terminology and adding needed definitions.

564

02:23:03.240 --> 02:23:11.640

Nick Snyder (COBI Arborist): Improving the landmark tree ordinance to better protect trees in our more densely zoned areas consolidating tree retention regulations.

565

02:23:12.270 --> 02:23:21.660

Nick Snyder (COBI Arborist): For non critical area and non try and properties and adopting a best management practices manual that can serve the city and its residents in numerous different ways.

566

02:23:23.790 --> 02:23:29.160

Nick Snyder (COBI Arborist): Just to go over a quick overview of the list of changes as there's a number of different changes involved here.

567

02:23:30.360 --> 02:23:38.730

Nick Snyder (COBI Arborist): These are we organized by the chapters in which they occur and 1618, which is our tree removal and vegetation maintenance and Forest Stewardship chapter.

568

02:23:40.140 --> 02:23:43.260

Nick Snyder (COBI Arborist): we're adding and adding or we are proposing to add in.

569

02:23:44.400 --> 02:23:51.480

Nick Snyder (COBI Arborist): All the tree unit requirements which are tree retention requirements which currently live in Chapter 1815.

570

02:23:52.170 --> 02:23:59.820

Nick Snyder (COBI Arborist): But consolidating them here so that all the tree retention and permitting requirements for non shoreline and non critical area properties are available.

571

02:24:00.750 --> 02:24:11.580

Nick Snyder (COBI Arborist): adding a limited exemption for fire wise USA wildfire mitigation around primary structures which does not include the removal of trees that would normally require permitting.

572

02:24:12.750 --> 02:24:24.030

Nick Snyder (COBI Arborist): So we were to retain our review of removing trees and incorporating permitting for underbrush clearing with thresholds of different square footage set depending on the zoning.

573

02:24:24.630 --> 02:24:40.650

Nick Snyder (COBI Arborist): and adding some needed definitions for dead tree has a tree wildlife snag also creating a Forest Stewardship permit, which add some flexibility for some longer term projects that would have had pretty burdensome permitting requirements in the past to.

574

02:24:41.910 --> 02:24:46.380

Nick Snyder (COBI Arborist): You know, seek permits on an annual basis for these ongoing projects and.

575

02:24:47.700 --> 02:24:59.010

Nick Snyder (COBI Arborist): Also, protecting our habitat snags when they are used as part of mitigation plan and updating and clarifying some of the tree risk assessment requirements for track arborists.

576

02:25:00.990 --> 02:25:15.780

Nick Snyder (COBI Arborist): In chapter 1632, which is our landmark tree ordinance chapter we're proposing to expand the landmark tree ordinance to apply to all zoning districts, except are 0.4 or one in our two, you can see, on the map here.

577

02:25:17.280 --> 02:25:25.590

Nick Snyder (COBI Arborist): Where it currently applies as this Red Cross hatched area and in the proposal is to extend it to apply to the orange areas.

578

02:25:27.210 --> 02:25:33.870

Nick Snyder (COBI Arborist): Right now, you can see that the current area administration kind of cuts through some.

579

02:25:34.710 --> 02:25:47.580

Nick Snyder (COBI Arborist): zoning districts and even bisects some lots completely on its own and also it's not a document that is easily found by a lot of folks that then that's the window winslow masterplan study area.

580

02:25:48.120 --> 02:25:55.230

Nick Snyder (COBI Arborist): And by doing this modest expansion, it would allow people to determine if this applies in their property just by knowing their zoning.

581

02:25:55.890 --> 02:26:05.850

Nick Snyder (COBI Arborist): which would be really helpful for folks, and this also proposes to solidified landmark free ordinance as a permanent fixture of a tree regulation, so no longer be an interim control.

582

02:26:06.450 --> 02:26:19.950

Nick Snyder (COBI Arborist): And it expands and refines the qualifying characteristics and species for landmark trees and also includes that same update for clarifying tree risk assessment requirements when these trees, need to be removed, potentially.

583

02:26:21.030 --> 02:26:26.970

Nick Snyder (COBI Arborist): And then in Chapter 1815 or just a men proposing to amend one section one oh.

584

02:26:28.290 --> 02:26:40.530

Nick Snyder (COBI Arborist): This would update the tree evaluation requirements found here to include an additional voluntary formulaic approach, which basically just comprises the table that people can drop their trees into to determine.

585

02:26:42.300 --> 02:26:54.600

Nick Snyder (COBI Arborist): But also allows them to take the normal route of having a qualified professional do an appraisal but also does reference the proper manual which we're currently lacking in our code.

586

02:26:55.770 --> 02:27:14.850

Nick Snyder (COBI Arborist): Also change changes the allocation of tree units when trees are shared to kind of more closely match the legal understanding of tree ownership when it's when a tree is shared and also there's an unrelated change there was an erroneous change to a table and.

587

02:27:15.870 --> 02:27:27.150

Nick Snyder (COBI Arborist): When our subdivision standards were recently updated and so this also includes an that change just to bring that back to where it should have been historically has been.

588

02:27:29.130 --> 02:27:38.100

Nick Snyder (COBI Arborist): And then also one additional change is proposed in the critical areas ordinance and the aqua recharge protection area chapter.

589

02:27:39.600 --> 02:27:47.640

Nick Snyder (COBI Arborist): In this proposal is adding an exemption from the designation of an aka for recharge protection area for.

590

02:27:48.180 --> 02:27:55.290

Nick Snyder (COBI Arborist): The development and maintenance of utility corridors when the property when the underlying property isn't owned by the utility company.

591

02:27:55.890 --> 02:28:05.730

Nick Snyder (COBI Arborist): We were in looking at some projects that PFC has been proposing to kind of solidify some of the services to bainbridge island, we ran into this issue where.

592

02:28:06.690 --> 02:28:19.020

Nick Snyder (COBI Arborist): them needing to cut across some properties would trigger those properties needing to designate in arpa so this would serve to sort of streamline that process and avoid having these properties that aren't developing.

593

02:28:20.130 --> 02:28:21.780

Nick Snyder (COBI Arborist): Have the need to designate in arpa.

594

02:28:23.310 --> 02:28:30.960

Nick Snyder (COBI Arborist): So i'm happy to answer any questions I know there's a lot to talk about here, and a lot to cover so i'm happy to answer any questions I can write anything.

595

02:28:31.980 --> 02:28:42.480

Rasham Nassar: Thank you very much city arborist appreciate that presentation, there is certainly a lot of material there and we will turn the Council for discussion councilmember car.

596

02:28:46.650 --> 02:28:47.220

Christy Carr: Thank you.

597

02:28:48.390 --> 02:28:53.370

Christy Carr: Thanks Nick for all your work, I know you've been working on this forever and appreciate all you've put into it.

598

02:28:55.020 --> 02:29:08.460

Christy Carr: I had a motion I forwarded to consider for the Council and I apologize that I did not send out at 617 there was a gremlin and my email, it was sent this afternoon, but i'm sorry you didn't get it until.

599

02:29:09.540 --> 02:29:19.350

Christy Carr: very late but i'd like to make a motion that is different than the one in the agenda packet and i'm not sure mayor if I should do that now.

600

02:29:21.120 --> 02:29:21.480

Rasham Nassar: Great.

601

02:29:22.050 --> 02:29:22.650

Christy Carr: I will.

602

02:29:23.760 --> 02:29:37.110

Christy Carr: So I moved to remand ordinance 2021 dash oh seven to the planning department and for staff to bring back a revised ordinance 20 2107 to a future City Council meeting and or public hearing for further consideration.

603

02:29:40.950 --> 02:29:46.590

Rasham Nassar: councilmember pollock seconds that motion is there a discussion on that motion councilmember car did you want to.

604

02:29:47.910 --> 02:29:49.320

Rasham Nassar: elaborate at all or.

605

02:29:50.340 --> 02:29:51.330

Rasham Nassar: For good.

606

02:29:53.460 --> 02:30:03.660

Christy Carr: yeah i'm happy to hear comments in my email, as I said to my colleagues, I have a number of issues or concerns related to this ordinance.

607

02:30:04.830 --> 02:30:12.960

Christy Carr: Both on subject matter, as well as process, I did go back and review the barbarous original report.

608

02:30:14.850 --> 02:30:23.940

Christy Carr: I think most of you remember that I wrote the staff response to that report and then I did review the planning commission's public hearing and their deliberation.

609

02:30:26.070 --> 02:30:43.740

Christy Carr: So, ultimately, I think that i'm i'm concerned that this isn't meeting our original objectives, I know that this was started in 2018 and I feel like maybe we lost the ball along the way the arborist report that the Council itself commissioned.

610

02:30:44.880 --> 02:30:53.790

Christy Carr: was asking the questions like will we protect more trees, who are more tree canopy well the readability of the code be improved.

611

02:30:54.210 --> 02:31:04.170

Christy Carr: And will this new code increased compliance with the code and therefore increase preservation and protection of trees and I don't think that this ordinance does that.

612

02:31:05.070 --> 02:31:22.710

Christy Carr: I think that it's not any less unworkable than was, as identified by the arborists and I know it's hard to write because i've done it, but I don't think we're there yet, and I think that the interim control and the landmark tree ordinance doesn't.

613

02:31:24.420 --> 02:31:35.880

Christy Carr: expire until the end of June, so I think we have time to get this right, so remaining it back to the plan department is one of the options for Council action related to amendments to the Code.

614

02:31:36.210 --> 02:31:47.490

Christy Carr: And I would like to encourage my colleagues to do that I have probably three pages of specific notes related to this ordinance language.

615

02:31:48.120 --> 02:32:01.230

Christy Carr: For all three sections of the code that are proposed to be amended that i'd be happy to share and then I also have a list of about a dozen issues related to the process that i'm quite concerned about.

616

02:32:02.550 --> 02:32:05.940

Christy Carr: so happy to say more, but i'd like to hear from others as well.

617

02:32:08.280 --> 02:32:10.200

Rasham Nassar: And Deputy Mayor had topless.

618

02:32:11.910 --> 02:32:26.730

Kirsten Hytopoulos: um so that I can understand, so when when when you're talking about the original arborist report counselor carve that would be it wouldn't be our current city arborist that would be the abras back in 2018 that that caused the original.

619

02:32:28.290 --> 02:32:40.230

Kirsten Hytopoulos: scope of work so um so my concern would be I mean this is hard you know so so when we up here are all the people, and I know that you are far more expert than we are.

620

02:32:41.550 --> 02:32:46.260

Kirsten Hytopoulos: You are one person, though one Council member with more expertise than we are.

621

02:32:47.460 --> 02:32:57.210

Kirsten Hytopoulos: And this has this was you know the work was an issue, so this is this puts us in an interesting scenario situation procedurally policy wise because.

622

02:32:57.900 --> 02:33:11.880

Kirsten Hytopoulos: A scope of work was set and and it was set through a process, and this has gone through planning and has come through the planning Commission and then the planning Commission has signed off on this and my understanding is the planning Commission.

623

02:33:12.990 --> 02:33:15.600

Kirsten Hytopoulos: feels good about this and my understanding is that our city.

624

02:33:15.600 --> 02:33:20.670

Kirsten Hytopoulos: arborist okay well that's what we'd hear more about because that was my understanding is that they did, and my understanding is that.

625

02:33:21.120 --> 02:33:21.600

Kirsten Hytopoulos: Like I said.

626

02:33:22.740 --> 02:33:39.060

Kirsten Hytopoulos: My understanding is that our city arborist does so, I guess, we need to hear that, because we have we of course have to rely on the Commission and our city arborist our staff to make our decision so it's kind of hard for us on the fly up here.

627

02:33:40.140 --> 02:33:41.310

Kirsten Hytopoulos: To turn everything back.

628

02:33:42.810 --> 02:33:44.220

Kirsten Hytopoulos: To the process okay.

629

02:33:45.090 --> 02:33:46.050

Rasham Nassar: that's a member public.

630

02:33:50.640 --> 02:34:02.040

Michael Pollock: um yeah i'm have tremendous respect for counseling the car and I would like to see the comments I was looking for that I don't seem to be.

631

02:34:03.180 --> 02:34:09.360

Michael Pollock: On the email I got did you include them as an attachment or not okay so.

632

02:34:10.830 --> 02:34:12.660

Michael Pollock: I think there's lots of room for improvement.

633

02:34:12.690 --> 02:34:21.300

Michael Pollock: I certainly appreciate the hard work that's gone into getting it this far, but I don't see any procedural issue with me managing it.

634

02:34:22.050 --> 02:34:30.810

Michael Pollock: Sending the comments, including the comments and demanding it to staff for consideration of those comments, and I think that's what the Council is all about.

635

02:34:31.200 --> 02:34:43.800

Michael Pollock: And I would I would love to see them before doing that, but i'm certainly given your background on this councilmember car i'm willing to defer to your expertise songs so.

636

02:34:45.780 --> 02:34:52.500

Michael Pollock: But my view is this is what we're here to do is make comments and improve legislation so.

637

02:34:53.970 --> 02:34:54.600

I think it's a good.

638

02:34:55.800 --> 02:34:56.460

direction.

639

02:34:58.470 --> 02:34:59.280

Rasham Nassar: councilmember car.

640

02:35:02.340 --> 02:35:15.930

Christy Carr: Thanks um I guess to respond to Deputy Mayor high top of this is a question about process issues, I have been in contact with the planning Commission chair about this, and she does feel.

641

02:35:16.620 --> 02:35:24.480

Christy Carr: That a public hearing held by City Council would be a good idea for a number of reasons i'll go through my concerns and.

642

02:35:25.470 --> 02:35:32.610

Christy Carr: The planning Commission held a public hearing on December 17 2020 the ordinance that was in front of the planning Commission.

643

02:35:32.970 --> 02:35:36.210

Christy Carr: was substantially different than the ordinance, that is, in our packet tonight.

644

02:35:36.660 --> 02:35:43.500

Christy Carr: For example, there were 13 whereas statements in the public carrying draft and there's 30 and the agenda in our ordinance tonight.

645

02:35:43.920 --> 02:35:49.530

Christy Carr: There is nothing else in the actual agenda, and there was no reference to the five exhibits that we have in our ordinance tonight.

646

02:35:50.190 --> 02:35:58.530

Christy Carr: There was one public commenter during the public hearing and they were not able to be heard by the planning Commission during the public hearing due to technical difficulties.

647

02:35:58.770 --> 02:36:06.000

Christy Carr: So the planning Commission did not have the benefit of that public input when they made their recommendation or after the public hearing.

648

02:36:07.080 --> 02:36:14.880

Christy Carr: The planning Commission wasn't provided with the secret checklist or notice some determination prior to their recommendation section 216 one at.

649

02:36:15.570 --> 02:36:24.510

Christy Carr: requires the sequence of review of legislation to be that the CB review comes before the planning Commission review.

650

02:36:24.990 --> 02:36:33.510

Christy Carr: And recommendation, which was again December 17 super review Stephen determination was January 29 2021.

651

02:36:34.410 --> 02:36:44.010

Christy Carr: The best practices manual was not provided in track changes so there's no way to know what we'd be adopt how what we pay adopting tonight was was changed or why.

652

02:36:44.880 --> 02:36:52.500

Christy Carr: three items were not included in the public hearing draft that was before the planning Commission, including significantly.

653

02:36:53.040 --> 02:36:58.950

Christy Carr: That the landmark tree ordinance would be expanded to include a number of additional zoning districts.

654

02:36:59.880 --> 02:37:10.140

Christy Carr: The planning Commission at their meeting had quite a long discussion about the ordinance itself they had requested at prior meetings to have a more detailed ordinance and they didn't receive one.

655

02:37:10.860 --> 02:37:15.990

Christy Carr: They wanted the ordinance to describe the intent with regard to multiple chapters of the Minutes will code.

656

02:37:16.620 --> 02:37:33.660

Christy Carr: An explanation of what the ordinance actually does and why it's necessary it currently doesn't have any explanation of the exhibits initially the ordinance states the planning Commission quote met with city staff, this is a perceived or presented as a perceived.

657

02:37:34.800 --> 02:37:43.110

Christy Carr: Violation of the opm a it should be that they held planning they held planning Commission meetings at which staff presented information.

658

02:37:44.160 --> 02:37:55.650

Christy Carr: And that's in terms of the process also the introduction of the ordinance states that it's a revision to the city's tree and vegetation.

659

02:37:56.610 --> 02:38:04.530

Christy Carr: Regulations, there is a tree and vegetation regulation and 1620, which is a critical areas ordinance I think that presents some confusion.

660

02:38:05.310 --> 02:38:20.910

Christy Carr: And I think the ordinance also should state in its introduction that we're adopting a best management practices manual I think the ordinance also has some confusion, or at least i'd like some clarification on some of the whereas statements related to specific ordinances.

661

02:38:22.800 --> 02:38:36.480

Christy Carr: And so, those are my process concerns I didn't send these out prior to the meeting I also have a number of comments related to the ordinance language itself or the proposed amendments to section.

662

02:38:41.430 --> 02:38:41.730

Christy Carr: and

663

02:38:42.780 --> 02:38:47.430

Christy Carr: So i'll hold for now, and I can provide more later.

664

02:38:49.230 --> 02:38:56.100

Rasham Nassar: Thank you councilmember car, there are a number of Henry so i'm just going to go down the list in the order that they were raised councilmember deets.

665

02:38:56.160 --> 02:39:06.840

Joe Deets: yeah Thank you mayor and Council member car, excuse me, but I you mentioned an email that was sent to us by you and I didn't get it so.

666

02:39:07.620 --> 02:39:21.750

Joe Deets: Just so the way this this discussion is I mean I will differ because of your expertise in this matter, but I just want to say this is all news to me I you know hearing this right now, so I didn't see any email or anything on this before.

667

02:39:23.520 --> 02:39:24.600

Rasham Nassar: councilmember snyder.

668

02:39:26.460 --> 02:39:27.000

Leslie Schneider: Thank you.

669

02:39:28.020 --> 02:39:28.680

Leslie Schneider: um.

670

02:39:29.700 --> 02:39:43.440

Leslie Schneider: So I really appreciate the scrutiny that councilmember car has has put on this, because obviously you know she has deep concern and care for the outcome here.

671

02:39:43.830 --> 02:39:53.130

Leslie Schneider: And I assumed a lot of us have a lot of care to we just don't have the same background, so I heard your list of process concerns and.

672

02:39:53.820 --> 02:40:06.270

Leslie Schneider: I guess I would agree that those probably should be addressed, or you know, a certain percentage of them that would potentially end up with a you know, a different outcome of.

673

02:40:06.690 --> 02:40:12.150

Leslie Schneider: an ordinance and we certainly care a lot about the whole process, so we need to hear what people have to say about it.

674

02:40:14.790 --> 02:40:25.680

Leslie Schneider: I guess I would hope and you don't have to let me know one way or the other, but I would hope that maybe these concerns had been mentioned to staff ahead of tonight.

675

02:40:27.570 --> 02:40:38.310

Leslie Schneider: By guess My main question is, what does success look like for this for this ordinance and so, in your email to us, you know you have.

676

02:40:38.670 --> 02:40:49.140

Leslie Schneider: Three points here will more trees and more tree canopy be preserved and protected does this improve the readability of the code and will this increase compliance with the code.

677

02:40:50.730 --> 02:40:56.640

Leslie Schneider: I think I heard our arborist mentioned a number of items that sounded like it was.

678

02:40:59.400 --> 02:41:10.560

Leslie Schneider: Getting to the readability of the code and compliance with the code based on clarity with regards to zoning and so forth, but again I don't really know what you mean by that.

679

02:41:11.160 --> 02:41:21.450

Leslie Schneider: I, the first point will more trees and more tree can be be preserved and protected I think that's the really sort of important one and.

680

02:41:22.680 --> 02:41:26.280

Leslie Schneider: So I guess i'm torn here because.

681

02:41:27.660 --> 02:41:32.730

Leslie Schneider: i'm not sure whether we would be giving staff enough.

682

02:41:34.530 --> 02:41:43.860

Leslie Schneider: direction to other than you know, meeting the process concerns I don't know that we would be giving enough direction to know what success looks like or.

683

02:41:44.910 --> 02:41:47.130

Leslie Schneider: So anyway i'm confused.

684

02:41:49.770 --> 02:41:55.020

Leslie Schneider: i'm worried about reminding it back to staff, when we don't have clear.

685

02:41:58.500 --> 02:42:04.830

Leslie Schneider: Recommendations other than the list of process concerns that you that you brought up
Thank you.

686

02:42:06.750 --> 02:42:17.250

Rasham Nassar: Okay deputy very have spoken on this already the interim city manager has her hand up
when I where did Where are you that the box has keep shifting tonight that seems like a new zoom
thing.

687

02:42:18.720 --> 02:42:23.040

Rasham Nassar: Is it Okay, if I go to the interim city manager okay interesting manager.

688

02:42:23.700 --> 02:42:30.390

Ellen Schroer (she/her): Oh, I just wanted to make some comments made me in line with
councilmember Schneider on while staff has.

689

02:42:30.870 --> 02:42:34.440

Ellen Schroer (she/her): Clearly here and ready to support your discussion, many of these.

690

02:42:34.800 --> 02:42:44.940

Ellen Schroer (she/her): comments are new to me and i'd like to have some time to work with staff to
understand councilmember cars concerns and be ready to provide information to the Council, so that
we can have a.

691

02:42:45.330 --> 02:42:49.110

Ellen Schroer (she/her): conversation that's focused on decision points and moving forward with this item.

692

02:42:49.830 --> 02:43:03.870

Ellen Schroer (she/her): It sounds like there's maybe a list of many items that she'd like to discuss, and so it may be beneficial at this time to move this to a different on to a different meeting for a longer discussion when we've had time to take a look at those.

693

02:43:05.400 --> 02:43:15.870

Rasham Nassar: In the interest of facilitating this discussion I don't want to interrupt Council debate or comment on this, but would counsel be amenable to that do most do we mostly agree.

694

02:43:16.710 --> 02:43:20.340

Rasham Nassar: With the interim with the interim city manager seems to be proposing.

695

02:43:20.730 --> 02:43:28.770

Rasham Nassar: Which is to allow staff time to digest some of councilmember cars concerns sounds like counseling or car you've taken the time to write them up comprehensively and you're very well aware of them.

696

02:43:29.370 --> 02:43:37.110

Rasham Nassar: I would certainly be supportive of that and in the interest of moving us along I don't know that there's much more to discuss if we all agree that more time is warranted.

697

02:43:38.730 --> 02:43:39.540

Rasham Nassar: Would that be fair.

698

02:43:40.200 --> 02:43:43.680

Rasham Nassar: Enough Okay, so there are still three hands raised.

699

02:43:45.360 --> 02:43:48.750

Rasham Nassar: Would we like to continue debate or discussion on this item.

700

02:43:49.800 --> 02:43:50.310

Rasham Nassar: Or can.

701

02:43:51.990 --> 02:43:52.830

Rasham Nassar: Deputy Mayor.

702

02:43:54.750 --> 02:44:03.090

Kirsten Hytopoulos: um well, I just wanted i've been because I didn't know what this was and I heard something from Councillor car, I wanted to circle back and at least acknowledge that.

703

02:44:03.510 --> 02:44:09.540

Kirsten Hytopoulos: I have real concerns about many of the process, things that were raised by councilmember car and, yes, I think we should continue, we can.

704

02:44:09.780 --> 02:44:14.280

Kirsten Hytopoulos: Continue the conversation, and I just want to say, I think we have a lot to tease out here, because I think.

705

02:44:14.730 --> 02:44:21.210

Kirsten Hytopoulos: This is a process issues and then there's substance sensitive issues so as soon as like the best thing for us to do is to come back.

706

02:44:21.780 --> 02:44:26.550

Kirsten Hytopoulos: And then we need to figure out what needs to go back to the Commission and that what we were missing here.

707

02:44:26.940 --> 02:44:36.000

Kirsten Hytopoulos: I just want to point out we're missing the commission's voice, the Commission needs to needs to speak up, we need to help them express some of that and that's what's a little strange here.

708

02:44:36.300 --> 02:44:43.110

Kirsten Hytopoulos: Is if they're having problems, we need to help them express where they're having a problem, and then we need to hear from counselor car.

709

02:44:43.470 --> 02:44:57.000

Kirsten Hytopoulos: As somebody with a lot of experience and where she has also has problems with substance and I just as was comes back to us, I want to hear substance problems, and then I also want to hear where the Commission had problems with the process broke down because.

710

02:44:57.780 --> 02:45:07.230

Kirsten Hytopoulos: You know, things change when it left them, etc, but the things we've heard so I just hope that we hear from the Commission, as well as with this comes back to us thanks.

711

02:45:07.710 --> 02:45:11.670

Rasham Nassar: Ricard you've had a motion on the floor with a second correct Would you mind repeating that motion.

712

02:45:21.870 --> 02:45:22.590

Christy Carr: Not all.

713

02:45:25.170 --> 02:45:32.160

Christy Carr: My emotion was I moved to remand ordinance dash oh seven to the planning department and for staff to bring back a revised ordinance.

714

02:45:33.390 --> 02:45:37.350

Christy Carr: To a future City Council meeting and or public hearing for further consideration.

715

02:45:40.650 --> 02:45:41.580

Rasham Nassar: So that.

716

02:45:42.990 --> 02:45:44.100

Rasham Nassar: That motion.

717

02:45:45.720 --> 02:46:01.260

Rasham Nassar: I think, maybe doesn't adequately capture, I think that the direction the Council wants to take, we can just infer that you'll follow up with staff and provide them with your comments and then I would trust you to work with staff, just to clarify what those points.

718

02:46:02.280 --> 02:46:09.300

Rasham Nassar: Are is that is that OK, and then we could just maintain the motion on the floor, and the second with that kind of implicit understanding.

719

02:46:10.440 --> 02:46:12.090

Rasham Nassar: Interim city manager is that clear enough.

720

02:46:15.270 --> 02:46:21.780

Ellen Schroer (she/her): yeah I will work with councilmember car and also members, the planning department to make sure that we are all in communication.

721

02:46:22.230 --> 02:46:23.700

Rasham Nassar: Okay, great Council Ricard go ahead.

722

02:46:26.190 --> 02:46:42.450

Christy Carr: Oh yeah thanks um I just, I just wanted to be clear, I guess, to Council member schneider's point is that I, and I guess to councilmember deets as well as I did not forward my specific comments I just forwarded it my motion.

723

02:46:43.500 --> 02:46:44.730

Christy Carr: Earlier today.

724

02:46:46.080 --> 02:46:57.630

Christy Carr: And I do have the list of process concerns, but I also again have about three pages of substantive questions as an ask clarifications.

725

02:46:58.860 --> 02:47:10.200

Christy Carr: That, I think, are important to address and would certainly be necessary for me to have clarification on before I would feel comfortable supporting this ordinance moving forward, and I would.

726

02:47:11.250 --> 02:47:17.430

Christy Carr: I would welcome the planning Commission or the Chair whomever their designee is to be here when we discuss it next.

727

02:47:18.750 --> 02:47:19.440

Christy Carr: and

728

02:47:21.390 --> 02:47:27.300

Christy Carr: yeah I won't go into my specific comments about the substance substance of the.

729

02:47:29.250 --> 02:47:38.760

Christy Carr: amendments to the Code, but I am happy to provide those to staff so that we can have a better discussion next time.

730

02:47:42.960 --> 02:47:43.920

Rasham Nassar: councilmember colic.

731

02:47:44.670 --> 02:47:51.060

Michael Pollock: yeah and i'd like to call the question and I just want to clarify with you, the Council number geeks.

732

02:47:51.780 --> 02:48:02.370

Michael Pollock: You didn't receive it, because it looks like on the email that went to Joel the band instead of God, so I think that's why you get so far with that, I would like to call the question, I think.

733

02:48:04.410 --> 02:48:09.150

Rasham Nassar: yeah I don't see any other hands raised so i'll just assume that Councils ready to vote on the motion on the floor.

734

02:48:10.800 --> 02:48:11.730

Rasham Nassar: councilmember snyder.

735

02:48:13.710 --> 02:48:28.560

Leslie Schneider: Sorry i'm not exactly clear, so I what I do understand is that we're going to have a conversation about this later, but what we're deciding right now is whether to remand it back to staff, right now, and so, with the unclarity.

736

02:48:29.580 --> 02:48:37.080

Leslie Schneider: I guess I can't support I can't support it as stated Now I do support the intent but.

737

02:48:38.220 --> 02:48:44.130

Leslie Schneider: Unless I get further clarification i'm assuming all have to vote against this particular motion.

738

02:48:45.390 --> 02:48:45.510

As.

739

02:48:47.010 --> 02:48:53.700

Rasham Nassar: Well, just just a highlight for Council again the interim city manager understands the direction the ordinance is remanded back.

740

02:48:54.090 --> 02:49:03.330

Rasham Nassar: To the authority of staff with the understanding that councilmember car is going to work with staff and the interim city manager to share the points that she.

741

02:49:04.110 --> 02:49:11.820

Rasham Nassar: distributed to the Council and the concerns that we've heard her state tonight I think that's pretty clear interim city manager city attorney.

742

02:49:12.630 --> 02:49:13.890

Rasham Nassar: Will emotion.

743

02:49:15.120 --> 02:49:19.650

Ellen Schroer (she/her): Maybe you could just add to the motion unknown to the effect that.

744

02:49:20.790 --> 02:49:26.610

Ellen Schroer (she/her): staff will be considering Council comments as part of the puzzle, the process of remained.

745

02:49:30.180 --> 02:49:32.160

Rasham Nassar: On summer camp counselor snyder go ahead.

746

02:49:33.480 --> 02:49:38.520

Leslie Schneider: I think what i'm confused about is we're by approving this.

747

02:49:39.540 --> 02:49:56.520

Leslie Schneider: Motion we're sending it back to staff without understanding entirely what we're sending it back to staff for so I get it that councilmember car is going to be sending a lot more information to the city manager, but are we going to get that information, so I feel uncomfortable about.

748

02:49:57.690 --> 02:50:02.010

Leslie Schneider: Directing staff to do something that I don't understand the benefit of yet.

749

02:50:06.720 --> 02:50:07.500

Rasham Nassar: i'm sorry.

750

02:50:07.980 --> 02:50:18.180

Rasham Nassar: Excuse me councilman here there's emotion on the floor and it's been second it so Council members can I do supposed to support the motion or not support the motion counselor pilot called a quick call to question.

751

02:50:19.260 --> 02:50:21.750

Rasham Nassar: Deputy Mayor had topless did you have anything additional to add.

752

02:50:23.310 --> 02:50:28.830

Kirsten Hytopoulos: On this i'm just i'm just going to ask counseling mccarter consider withdrawing the motion because I think that the best, I think.

753

02:50:29.280 --> 02:50:35.010

Kirsten Hytopoulos: i'd like to point out, I think this is very complicated and needs to be teased out into procedural breakdowns.

754

02:50:35.460 --> 02:50:41.010

Kirsten Hytopoulos: and substantive issues with the ordinance that we all have not been made privy to.

755

02:50:41.400 --> 02:50:48.450

Kirsten Hytopoulos: And that councilmember car should work with the city manager to figure out how we need to work through this where the planning Commission needs to come in.

756

02:50:48.900 --> 02:50:57.330

Kirsten Hytopoulos: How how counselor car can bring for her concerns in a manner that we can digest you know I mean, I think we need a process I think what we're doing is.

757

02:50:57.990 --> 02:51:05.490

Kirsten Hytopoulos: Is we're taking this off today's agenda we're recognizing there's some time to like get this right, get the right players involved.

758

02:51:05.910 --> 02:51:22.560

Kirsten Hytopoulos: And it's not perhaps as easy as the original motion, so I understand this emotional the table, I understand the questions when called, but I think that I think the easiest thing would be to remove it and work with the city manager to figure out a path forward to these different parts.

759

02:51:25.950 --> 02:51:26.820

councilmember car.

760

02:51:29.160 --> 02:51:43.290

Christy Carr: yeah i'd be happy to withdraw the motion I just my main point today was to reject this proposal that's also an option into 16 one at, and so, if I can.

761

02:51:43.800 --> 02:52:02.400

Christy Carr: make a new motion to reject this proposal and to have it brought back to a future Council agenda if that's more clear or if that's more comfortable for folks that's fine with me, but I simply did not want this sent to a consent agenda for consideration of approval okay.

762

02:52:02.850 --> 02:52:08.790

Rasham Nassar: thanks for that clarification I think we're getting somewhere finally there's the most in our packet, which is to approve this correct.

763

02:52:09.600 --> 02:52:23.370

Rasham Nassar: So we can just not make the motion, and then we can take this up during our agenda, setting meeting on Thursday myself w mayor interim city manager councilmember card, please send the team, the agenda setting team any information that you would like.

764

02:52:24.510 --> 02:52:37.800

Rasham Nassar: us to have if Council would be OK, the next touching that we have about this, is it Council touching which is kind of to discuss what's next for the tree ordinance and then we can proceed from there does that sound does that sound okay.

765

02:52:39.300 --> 02:52:44.910

Rasham Nassar: If this Council understand we're just not going to make the motion in the packet tonight and that achieves the effect of not adopting the ordinance.

766

02:52:45.930 --> 02:52:47.040

Rasham Nassar: So we don't have to do anything.

767

02:52:49.410 --> 02:52:49.890

Rasham Nassar: Okay.

768

02:52:51.270 --> 02:52:51.690

Great.

769

02:52:54.180 --> 02:52:58.680

Michael Pollock: So just the point of ordering stuff them emotion, has to be formally was wrong.

770

02:52:59.520 --> 02:53:01.800

Rasham Nassar: I was going to get there, thank you councilmember pollock.

771

02:53:03.030 --> 02:53:08.880

Rasham Nassar: counselor car Would you mind formally withdrawing your motion so it's clear to the city clerk she can record it for the Minutes.

772

02:53:11.130 --> 02:53:13.170

Christy Carr: I formerly withdraw my motion.

773

02:53:15.270 --> 02:53:18.510

Rasham Nassar: OK, so the motion has been withdrawn city clerk.

774

02:53:18.600 --> 02:53:20.430

Rasham Nassar: Did you capture that are we free to move on.

775

02:53:22.350 --> 02:53:23.790

Christine Brown: Yes, mayor, I have it recorded.

776

02:53:24.300 --> 02:53:24.870

Okay, great.

777

02:53:26.370 --> 02:53:39.090

Rasham Nassar: With that we are going to move on and our agenda, Council, we are on item 10 be now proclamation condemning hate racism and intolerance against Asians and Pacific islanders councilmember deets yeah.

778

02:53:39.360 --> 02:53:48.300

Joe Deets: Thank you mayor yeah this came out of a motion that I made one was that mark 23rd to do emotion to condemning.

779

02:53:50.640 --> 02:54:01.170

Joe Deets: A proclamation condemning hate racism and intolerance against Asians and Pacific islanders and I work with the race equity Advisory Committee and actually it was.

780

02:54:02.100 --> 02:54:15.780

Joe Deets: Last weekend, they held a both a candlelight vigil and a on Saturday, and then a rally on Sunday and I read out the proclamation and on Saturday night.

781

02:54:16.470 --> 02:54:31.770

Joe Deets: Members of the race equity advisory committee signed it just didn't support there, because this has to be approved by Council so now we're back and i'm ready to seek your approval if you'd like me to read it i'm very happy to do so.

782

02:54:35.580 --> 02:54:37.350

Michael Pollock: yeah I would I would appreciate that.

783

02:54:39.630 --> 02:54:49.410

Joe Deets: Thank you i'll go have a proclamation by the City Council bainbridge island Washington condemning hate racism and intolerance against Asian and Pacific islanders.

784

02:54:49.980 --> 02:54:57.720

Joe Deets: Whereas bainbridge island has a long and rich history of people of the Asian ethnicity, as vital members of its Community acknowledged and brought to life by.

785

02:54:58.140 --> 02:55:08.460

Joe Deets: events such as the into Pino festival, and the mochi festival, and whereas racism and violence against Asians and Pacific islanders is deeply ingrained in American history.

786

02:55:08.910 --> 02:55:15.630

Joe Deets: and playing by Labor pressures international conflicts and economic issues, which has resulted in racist government actions.

787

02:55:15.900 --> 02:55:22.650

Joe Deets: Including the Chinese exclusion act of 1882 the first and only major federal legislation to single out a nationality.

788

02:55:22.920 --> 02:55:34.200

Joe Deets: Prohibiting Chinese laborers from entering the country and executive order 9066 which in 1942 sent 225 men, women and children of Japanese.

789

02:55:34.590 --> 02:55:39.780

Joe Deets: ancestry from Bainbridge Island to a country concentration camp and.

790

02:55:40.350 --> 02:55:52.230

Joe Deets: Whereas these and other government actions devastated communities and help form the puter so ideology there's lead to racist actions mushrooming across the country during the cover 19 pandemic.

791

02:55:53.010 --> 02:56:04.140

Joe Deets: Whereas a 2020 2020 2021 national report released by stop AAP I hate reveal that there have been at least 3795 hate incidents.

792

02:56:04.560 --> 02:56:09.600

Joe Deets: targeting the Asian and Pacific islander community, including assault slash slashing and death.

793

02:56:09.960 --> 02:56:17.820

Joe Deets: Whereas on March 16, 2021, eight people were killed and shootings in three Atlanta area spas, six of whom were Asian women.

794

02:56:18.120 --> 02:56:28.020

Joe Deets: And, whereas this violence and aggression, leaving a dramatic impact on Asians and Pacific islanders in the country that is critical to acknowledge and condemn it.

795

02:56:28.530 --> 02:56:44.490

Joe Deets: And, whereas on a six-day of office, President Joseph Biden issued an executive memorandum committing the Federal Government to condemn and combat racism, see the phobia and intolerance against Asian Americans and Pacific islanders and the United States.

796

02:56:45.660 --> 02:57:01.440

Joe Deets: Now, therefore, be resolved that the Bainbridge Island City Council one condemns hate racism and intolerance against Asians and Pacific islanders and to the firm's its commitment and resolve to make Bainbridge Island safe in Ecuador place for all.

797

02:57:05.190 --> 02:57:09.120

Rasham Nassar: Thank you very much, councilmember dates Deputy Mayor had topless.

798

02:57:10.800 --> 02:57:17.040

Kirsten Hytopoulos: I note that four of us have not been given opportunity to sign this when we give an opportunity to sign this.

799

02:57:18.540 --> 02:57:32.610

Joe Deets: i'm i'm well, it was because of opm a I could only do three so now that it's approved well assuming gets approved, I will knock on your door, maybe tomorrow how's that.

800

02:57:33.630 --> 02:57:41.070

Joe Deets: For you, and and, since this is my gig i'll just go ahead and handle over it, you can sign it, and then i'll deliver it to the city clerk yeah.

801

02:57:41.520 --> 02:57:46.080

Kirsten Hytopoulos: And you can send it electronically, I mean, most of us can probably do electronically to yeah.

802

02:57:46.110 --> 02:57:48.510

Joe Deets: Well, just to get the signatures on one page would be.

803

02:57:49.860 --> 02:57:50.880

Kirsten Hytopoulos: Great all right.

804

02:57:51.690 --> 02:57:52.170

Rasham Nassar: Does it.

805

02:57:53.400 --> 02:57:53.790

Joe Deets: Go ahead.

806

02:57:54.840 --> 02:57:57.270

Rasham Nassar: Does the city clerk have the capacity to.

807

02:57:58.590 --> 02:58:02.850

Rasham Nassar: Add councilmember electronic signatures to proclamations.

808

02:58:03.870 --> 02:58:05.130

Rasham Nassar: Interesting manager city clerk.

809

02:58:05.970 --> 02:58:09.150

Christine Brown: near this city clerk yes, I can add electronic.

810

02:58:09.420 --> 02:58:25.770

Rasham Nassar: So if the for Council members that did not have an opportunity to sign the proclamation would like to have their signatures added, we can say so right now, and after the adoption is proclamation we can have the city clerk at our electronic signatures, so one two okay.

811

02:58:26.880 --> 02:58:34.200

Rasham Nassar: Great so city clerk I hope you capture that we would counsel would like to request all councilmember signatures attached to this proclamation.

812

02:58:37.800 --> 02:58:38.280

Rasham Nassar: Go ahead city.

813

02:58:40.740 --> 02:58:44.520

Christine Brown: Thank you, I will follow up with a few of you to obtain your electronic signature.

814

02:58:45.120 --> 02:58:47.400

Rasham Nassar: Great Thank you councilmember deeds.

815

02:58:47.880 --> 02:58:55.950

Joe Deets: yeah I guess I should actually make the motion I moved to approve the proclamation condemning hate racism and intolerance against Asians and Pacific islanders.

816

02:58:57.750 --> 02:59:00.420

Rasham Nassar: councilmember pollock second that motion is there any further discussion.

817

02:59:01.800 --> 02:59:05.550

Rasham Nassar: All those in favor please say Aye Aye Aye opposed.

818

02:59:06.900 --> 02:59:13.290

Rasham Nassar: The APP motion passes unanimously Thank you counsel ever dates for bringing that forward.

819

02:59:13.920 --> 02:59:14.760

Joe Deets: Thank you, colleagues.

820

02:59:15.720 --> 02:59:20.670

Rasham Nassar: Council nine o'clock i'm is it okay to take five.

821

02:59:22.740 --> 02:59:29.790

Rasham Nassar: Okay, so Council will take a five minute break it's about nine o'clock right now, we will return at around 905.

822

02:59:30.840 --> 02:59:31.920

Rasham Nassar: See you back in five Council.

823

02:59:40.740 --> 02:59:42.930

Rasham Nassar: councilmember deets you are unmuted.

824

02:59:44.100 --> 02:59:44.430

Oh.

825

03:05:30.870 --> 03:05:35.580

Rasham Nassar: Okay, the time is 905 Council has returned from its break.

826

03:05:41.520 --> 03:05:42.270

Rasham Nassar: And we will.

827

03:05:45.060 --> 03:05:48.780

Rasham Nassar: move on our agenda now Council we are at item 10 see.

828

03:05:50.190 --> 03:06:02.340

Rasham Nassar: bainbridge island senior Community Center renovation project professional services agreement for architectural design services and public works director where's vicki is here to present this item for us tonight.

829

03:06:04.020 --> 03:06:04.710

Chris Wierzbicki: Even Council.

830

03:06:06.240 --> 03:06:24.720

Chris Wierzbicki: As mayor and sources this item is professional services agreement with coats design for the bainbridge island Community Center renovation project and just a little bit of background on how this process works for a professional service agreement like this the way we solicit these.

831

03:06:26.760 --> 03:06:33.270

Chris Wierzbicki: services is to put out a request for qualifications which is advertised and we.

832

03:06:34.380 --> 03:06:48.930

Chris Wierzbicki: receive responses from qualified firms to who are interested in doing the work we have a process for reviewing those those qualifications and ranking them and selecting a consultant, who we think is best.

833

03:06:51.180 --> 03:07:02.160

Chris Wierzbicki: Best will best serve the project, and then we negotiate a price with that particular consultant, and hopefully come to an agreement about the scope and price.

834

03:07:02.610 --> 03:07:10.500

Chris Wierzbicki: And if we can't come to an agreement, then we move to usually a second ranked candidate or sometimes we advertise the project depending on.

835

03:07:11.340 --> 03:07:23.490

Chris Wierzbicki: How how the process went in this particular case, we advertise for these services and several weeks back and received two proposals from to qualified firms.

836

03:07:25.320 --> 03:07:25.770

Chris Wierzbicki: We.

837

03:07:26.820 --> 03:07:35.520

Chris Wierzbicki: reviewed those qualifications and we asked the two Members from the Magellan senior Center board to participate with us on an interview Panel for two firms.

838

03:07:36.150 --> 03:07:50.580

Chris Wierzbicki: And we all agreed that coats design was the better qualified candidate for this work we negotiated a scope with them to do the design services and came up with a cost of about \$84,000 which you see here.

839

03:07:51.150 --> 03:08:00.300

Chris Wierzbicki: And that is the contract, you see before you tonight, so we are very excited to get started with this work as as the senior Center it's on schedule and.

840

03:08:00.960 --> 03:08:12.630

Chris Wierzbicki: we'd like to get the design services wrapped up in the second and third quarter this year so that we can advertise for construction and build this project these renovations next year, so happy to answer any questions about that.

841

03:08:13.020 --> 03:08:14.910

Rasham Nassar: Okay, thank you remember pollock.

842

03:08:15.900 --> 03:08:16.260

On.

843

03:08:18.000 --> 03:08:26.910

Michael Pollock: I moved to approve the baby and senior our Community Center innovation project professional services or architectural designs for business.

844

03:08:28.140 --> 03:08:29.880

Rasham Nassar: Council members night or second set motion.

845

03:08:32.010 --> 03:08:32.850

Rasham Nassar: councilmember car.

846

03:08:35.280 --> 03:08:37.290

Christy Carr: Thanks I just had a couple quick questions.

847

03:08:38.520 --> 03:08:48.960

Christy Carr: I read this as the only exterior work being a chimney DEMO and roof repair, so it was characterized are described as an interior remodel so I was curious why the.

848

03:08:49.650 --> 03:08:57.930

Christy Carr: Scope had the design review board process and or pre application and if we're paying for them to do that, or if that's was just standard language.

849

03:08:58.230 --> 03:09:09.270

Christy Carr: And then i'm curious about just the city commonly need assistance with the bidding process, and if the bidding process is to the hourly as needed isn't that an additional service or why is that included.

850

03:09:10.980 --> 03:09:17.730

Chris Wierzbicki: i'll address those one, at a time, so the first one related to the design review board, I think, as a part of the conversation you had with.

851

03:09:18.690 --> 03:09:31.680

Chris Wierzbicki: consultant about the scope we tried to include all the potential things that could come up as part of the process, and there are times when the design review board is interested in reviewing some of these products, even when they're not.

852

03:09:33.030 --> 03:09:44.310

Chris Wierzbicki: When they're interior only as it's like a courtesy, so to speak, so we included that in case there is a potential for that for for that committee to be interested in seeing this secondly.

853

03:09:45.540 --> 03:09:50.820

Chris Wierzbicki: It is common for a consultant to help us review bids and ensure that.

854

03:09:51.870 --> 03:10:02.130

Chris Wierzbicki: that the work is in line with enlightenment and the costs are in alignment with with the scope that was prepared by the designer and I do believe those services are included with this country.

855

03:10:07.350 --> 03:10:09.270

Rasham Nassar: And the other Council discussion on this topic.

856

03:10:11.790 --> 03:10:16.740

Rasham Nassar: Okay, seeing none there's a motion on the floor that's been seconded all those in favor please say Aye.

857

03:10:17.250 --> 03:10:18.060

Christy Carr: Aye Aye.

858

03:10:18.660 --> 03:10:19.380

Rasham Nassar: Any opposed.

859

03:10:20.670 --> 03:10:22.170

Rasham Nassar: That motion passes unanimously.

860

03:10:22.470 --> 03:10:23.910

Rasham Nassar: Thank you very much public works director.

861

03:10:24.120 --> 03:10:35.610

Rasham Nassar: Thank you, and Council will now move on and its agenda, we are on item 11 which is new business item 11 what was formerly item 11 a appointment to the ethics Board was pulled by Council from tonight's agenda.

862

03:10:36.000 --> 03:10:48.780

Rasham Nassar: And we have added a new item 11 a, which is a five minute discussion of the decision from the salary Commission Deputy Mayor had topless you requested this item be added, so I would defer to you to introduce it to the Council.

863

03:10:49.590 --> 03:10:57.630

Kirsten Hytopoulos: yeah I feel like the minimum that I think we need to accomplish here is, we just need to alert this the Community to just the bare bone facts, the facts that.

864

03:10:58.050 --> 03:11:06.150

Kirsten Hytopoulos: There was a salary Commission that meets supposed to meet every seven years actually our salaries have not been raised, for I think 12 years 13 years.

865

03:11:06.540 --> 03:11:11.790

Kirsten Hytopoulos: It did it did convene a did meet over a period of time it has raised our our salaries.

866

03:11:12.690 --> 03:11:27.600

Kirsten Hytopoulos: it's not something we get to approve we received it, it raised our salaries were a love it or i'm sorry \$1,000 a month and they've been raised three 3000 month the mayor's has been raised from correct me if i'm wrong is at 12 54,000 a month.

867

03:11:28.950 --> 03:11:35.940

Kirsten Hytopoulos: The those have gone and those have gone effect, we will start receiving that soon, and the reason, this is it was important to me to come on today.

868

03:11:36.960 --> 03:11:43.440

Kirsten Hytopoulos: was because there is in the RC w is a provision and ends up the city metro city attorney will correct me if i'm wrong.

869

03:11:43.830 --> 03:11:55.440

Kirsten Hytopoulos: there's a provision that allows, although we can't change that in any manner there's a provision that allows the Community if the Community is not happy with those numbers to overturn them through a referendum.

870

03:11:57.060 --> 03:12:01.950

Kirsten Hytopoulos: may only have 30 days to do that, after they go into effect, and as I understand that they went into effect.

871

03:12:02.790 --> 03:12:09.210

Kirsten Hytopoulos: When those were submitted from the salary Commission and and please correct me if i'm wrong city manager city attorney.

872

03:12:09.870 --> 03:12:18.690

Kirsten Hytopoulos: On the 19th So hopefully you'll yes, the 19th so that's underway, that was really important to me so that's number one and and the city.

873

03:12:19.200 --> 03:12:27.870

Kirsten Hytopoulos: I just want the Community Community community to know that you can look into the referendum process but going to Mrs see the mrc website and learn about that.

874

03:12:28.590 --> 03:12:33.420

Kirsten Hytopoulos: And I will post my Facebook page something about that I know that there's some people in the Community who are going to look into this.

875

03:12:34.590 --> 03:12:41.910

Kirsten Hytopoulos: As that's that's what I thought we minimally need to do I want us to put this on as a future conversation soon as a Council.

876

03:12:42.210 --> 03:12:50.040

Kirsten Hytopoulos: I think it's a policy decision point for us because I do think that there are potentially things that we can do if the Community is not asked act.

877

03:12:50.580 --> 03:13:06.030

Kirsten Hytopoulos: And I think this is such a significant raise that if they do not act, we need to try to act because I don't think that that our our city can afford this, this is an enormous raise it, as I understand it puts us up above commits Community like bellevue to coma.

878

03:13:07.170 --> 03:13:18.210

Kirsten Hytopoulos: And if we can't provide affordable housing in this Community, I mean this is going to be something like \$180,000 more a year that we're going to have to figure out how to find in our budget.

879

03:13:18.630 --> 03:13:27.720

Kirsten Hytopoulos: And I think probably Just about everyone on here could could happily use the additional funds I don't think anyone on here couldn't somehow use the money, but so could our Community.

880

03:13:28.770 --> 03:13:34.350

Kirsten Hytopoulos: And Councils long needed some sort of a raise, but this was just too much and.

881

03:13:35.370 --> 03:13:42.330

Kirsten Hytopoulos: If there's options out there for us to figure out how to undo this am i'd like the city attorney to come back and i'd like to hear what the rest of you think.

882

03:13:42.780 --> 03:13:51.510

Kirsten Hytopoulos: and help us figure out if we can undo this statutorily I mean through the through the bi MC if the Community doesn't overturn it so i'd like us to talk about that because.

883

03:13:52.200 --> 03:14:03.270

Kirsten Hytopoulos: The administration is going to be coming back into asking us how are you going to fund this, and this is the equivalent of US hiring an F T who might have been an affordable housing planner or something.

884

03:14:04.380 --> 03:14:13.350

Kirsten Hytopoulos: If we can't figure it out the can't do anything about it, we can't, but I think as policymakers, we need to have the conversation so that's my two bits.

885

03:14:19.470 --> 03:14:21.660

Rasham Nassar: Any other councilmember comments councilmember Schneider.

886

03:14:24.540 --> 03:14:32.160

Leslie Schneider: um I guess the main thing I want to just really stand behind is the transparency of the.

887

03:14:34.560 --> 03:14:35.970

Leslie Schneider: With the public.

888

03:14:37.170 --> 03:14:46.890

Leslie Schneider: I mean you know here I am on Council and the entire time that the salary Commission was meeting I thought that it that their votes to raise.

889

03:14:47.340 --> 03:14:54.300

Leslie Schneider: Salaries wouldn't even apply to me because I was already inside of my term right, and so I was wrong.

890

03:14:55.080 --> 03:15:14.790

Leslie Schneider: So I just, I feel, and I didn't know until today that there was a public process for potentially rolling this back, and so you know my main concern is that is about public education for me this is for everyone else um so anyway.

891

03:15:16.380 --> 03:15:23.160

Leslie Schneider: I think it's definitely worth us us talking about and I support the the transparency.

892

03:15:24.990 --> 03:15:25.890

Rasham Nassar: councilmember car.

893

03:15:27.510 --> 03:15:32.100

Christy Carr: Thanks i'm sorry I lost track of this agenda item, are we talking about adding it to a future agenda.

894

03:15:32.190 --> 03:15:43.050

Christy Carr: Or are we just talking about this right now, because if we're talking about it, right now, then I guess I have comments, but if we're just talking about adding it to a feature agenda item and a future time, then I think there.

895

03:15:43.440 --> 03:15:51.210

Christy Carr: Probably is Council support to do that and we don't need to be talking about it now, so I don't quite I don't know what what it is we're talking about.

896

03:15:53.490 --> 03:16:08.160

Rasham Nassar: Is there if there's a majority of Council members that would support just deferring this discussion to the soonest possible availability I would assume that we'd want to talk about it during next week study session, although I don't know how book that.

897

03:16:10.020 --> 03:16:15.930

Rasham Nassar: Agenda as, but I want to hear from all Council members, I mean if there's a majority that supports that we can certainly add it.

898

03:16:17.160 --> 03:16:25.110

Rasham Nassar: I don't know and also turn to the city attorney because my understanding is that the process happens within the salary Commission because Council members.

899

03:16:25.470 --> 03:16:37.500

Rasham Nassar: are not meant to be involved in discussions of their own agenda of their own salaries being that it does apply to us, so I have a little bit of concern about that I don't want to portray to the public that we have.

900

03:16:38.010 --> 03:16:43.260

Rasham Nassar: Any ability at all to influence or determine the outcome of our salaries, one way or the other.

901

03:16:45.510 --> 03:16:47.580

Rasham Nassar: city attorney do you have any thoughts on that.

902

03:16:49.080 --> 03:16:55.770

Joe Levan: Yes, there's a as the Council knows there's a provision in the city code that is very similar to or pursuant to.

903

03:16:56.220 --> 03:17:12.210

Joe Levan: Provision and State law related to our Commission so past the past Council adopted this in the code, so the Commission determines what your salary is going to be and it happens every seven years, so the you don't have a direct say over what that what your compensation is going to be.

904

03:17:13.680 --> 03:17:25.140

Joe Levan: But there it's in terms of the process that fema or topless is talking about there is a provision related to a referendum, and there is a 30 day provision related to that.

905

03:17:25.650 --> 03:17:34.320

Joe Levan: So that I think that's part of what customer had top where debbie Mira topless is referring to that clock starts ticking starting on April 19.

906

03:17:37.050 --> 03:17:58.080

Rasham Nassar: Okay um and then one more question for us to the Attorney we heard Deputy Mayor suggests that Council might be able to have some sort of decision making, or legislative authority to weigh in or or potentially influence the salary commission's decision or change, it is that true how.

907

03:17:58.140 --> 03:18:07.650

Joe Levan: Does the mirror I topless left to talk about about what she's thinking about in that regard there's no you don't the code is what it is so that it's not a matter of changing the code or or.

908

03:18:08.130 --> 03:18:18.150

Joe Levan: or doing it that way, because the that the Commission, it has been duly established and it's made its decision and made that referral, so the Deputy Mayor can speak to that issue she'd like.

909

03:18:19.020 --> 03:18:27.330

Kirsten Hytopoulos: To be mayor yeah well two things, and this goes one thing to cancel our cars, asking me, am I saying we should say anything about this i'm telling all of you.

910

03:18:28.080 --> 03:18:35.880

Kirsten Hytopoulos: In my opinion, once the Community finds out that we've just been awarded \$3,000 a month and \$4,000 in the in the case of the mayor.

911

03:18:36.180 --> 03:18:39.720

Kirsten Hytopoulos: they're going to want to know what we think about that, and I think we should go on the record so.

912

03:18:39.990 --> 03:18:46.710

Kirsten Hytopoulos: Whether we whether we talk about it now, we talk about next week, I think that we need to talk about it so that's what i'm saying so, if it's next week that's fine.

913

03:18:47.400 --> 03:18:59.820

Kirsten Hytopoulos: Whether we can do something about it that's what I want to hear from from the from the city attorney and so if we can't we can't and i'm not just a pioneer like out of out of the air that we might not be able to the reason i'm saying this is because.

914

03:19:01.320 --> 03:19:12.630

Kirsten Hytopoulos: Salaries can be set by by coat by ordinance and so i'd want to hear from the the city attorney whether we could, for example, just throw this out and change it going forward, and you know.

915

03:19:13.440 --> 03:19:24.060

Kirsten Hytopoulos: It would like basically throw out the salary and then set it going forward and go back to our old salary it wouldn't help us, we probably would then not have a raise but basically explore options.

916

03:19:24.780 --> 03:19:31.170

Kirsten Hytopoulos: I want us to explore options, because I don't think it's viable for us this is a policy question can we.

917

03:19:31.560 --> 03:19:41.520

Kirsten Hytopoulos: not do this because \$180,000 a year going forward if we were in a budget conversation \$180,000 a year for us.

918

03:19:41.970 --> 03:19:49.500

Kirsten Hytopoulos: would not be a very popular political political conversation for our Community, think about the conversations we have during the budget.

919

03:19:49.890 --> 03:20:03.720

Kirsten Hytopoulos: Think about affordable housing think about sustainable transportation, we have to ask the questions this that that's all i'm saying so i'm just asking us to ask the question and not just say Oh well, you know we can't do anything I want us to ask the question.

920

03:20:05.130 --> 03:20:06.090

Rasham Nassar: councilmember pollock.

921

03:20:07.830 --> 03:20:19.470

Michael Pollock: know when we agreed to put this on the agenda item, it was for a five minute explanation I think the explanations been made, thank you for the PSA um I think that the information is out there.

922

03:20:20.400 --> 03:20:30.150

Michael Pollock: My understanding is that the salary condition was formed to be independent of the Council, so we took the politics, out of it and it feels like we're just.

923

03:20:31.110 --> 03:20:40.890

Michael Pollock: Putting it right back in if we want to have a conversation about this great somebody make emotion and we can have another feature of them.

924

03:20:42.090 --> 03:20:42.630

Michael Pollock: But.

925

03:20:43.950 --> 03:20:48.120

Michael Pollock: We just added this to this, I think people have a sense of what it's about.

926

03:20:49.920 --> 03:20:59.790

Michael Pollock: councilmember are depleting their high topless wants to bring a proposal forward I don't know of any legislative solution myself it's pretty straightforward.

927

03:21:00.630 --> 03:21:13.440

Michael Pollock: there's two ways to go, but if you want to explore it and come back with something i'm certainly happy to consider it I don't I don't know that we need to have a extended discussion at this time, if somebody wants like I said, if somebody wants to discuss it further date.

928

03:21:14.700 --> 03:21:16.710

Michael Pollock: You can put on the agenda.

929

03:21:17.940 --> 03:21:23.010

Michael Pollock: And I thought the point of this Commission was keep us out of this.

930

03:21:24.090 --> 03:21:25.290

decision making process.

931

03:21:26.400 --> 03:21:27.060

Rasham Nassar: city attorney.

932

03:21:28.080 --> 03:21:40.860

Joe Levan: The quick points of clarification, one of her reference now a couple times to \$180,000 amount, I think the amount is this interesting manager can correct me if i'm wrong, I think the amount is actually \$300,000 something like that.

933

03:21:42.000 --> 03:21:53.010

Joe Levan: And the second point is if the Council would want the city attorney to look into legal options related to doing something to uh to uh to not effectuate this.

934

03:21:54.390 --> 03:21:59.100

Joe Levan: This increase in compensation that I want the majority of the Council to make that direction.

935

03:22:01.080 --> 03:22:10.620

Joe Levan: Because otherwise, as I said, it's a duly authorized prefer part of our code that's been adopted in the car Commission operated under that and they they did it based on what's in our code.

936

03:22:14.940 --> 03:22:20.100

Rasham Nassar: Deputy Mayor, would it be okay, if I go went to Council member deets he hasn't spoken on this yet councilmember deets.

937

03:22:20.790 --> 03:22:26.760

Joe Deets: yeah Thank you mayor, well, I was just let's just what I just heard from the city attorney I thought i'd try and make a motion.

938

03:22:28.500 --> 03:22:34.650

Joe Deets: That I moved to have the city attorney look into legal options to the salary commission's.

939

03:22:35.940 --> 03:22:36.840

Joe Deets: recommendations.

940

03:22:38.370 --> 03:22:40.110

Rasham Nassar: counselor pollock second set motion.

941

03:22:41.970 --> 03:22:45.330

Rasham Nassar: And Deputy Mayor, you need to come up one more time.

942

03:22:46.650 --> 03:22:52.500

Kirsten Hytopoulos: um I just want to make one additional request for information, but I, so if there's emotion on the table, I can wait.

943

03:22:53.730 --> 03:23:04.560

Rasham Nassar: Okay there's emotion on the table to direct the city attorney to research, any legislative options, there may be related to the salary commission's decision.

944

03:23:05.850 --> 03:23:08.760

Rasham Nassar: counselor carbs you want to speak to that that motion before we take about go ahead.

945

03:23:09.930 --> 03:23:22.740

Christy Carr: I do I, I guess, I just want to remind my colleagues that every time he asked the city attorney to do something new he's not doing something we've already asked them to do so, I guess, I would prefer to have a conversation, to see if there's.

946

03:23:23.100 --> 03:23:30.240

Christy Carr: To suss this out a little bit to see if we really want to explore legal options, because the Council member pilots point.

947

03:23:30.660 --> 03:23:38.910

Christy Carr: The point of establishing a salary Commission was not was to have us not involved and regardless of our personal opinions about that dollar amount.

948

03:23:39.420 --> 03:23:46.410

Christy Carr: There are there are subsequent Councils and subsequent people who will be in the seats, so I think that we, I get the.

949

03:23:46.740 --> 03:23:52.830

Christy Carr: The the big I think it's 260 \$4,000 that is big for our jurisdiction but.

950

03:23:53.100 --> 03:24:04.050

Christy Carr: it's not our decision and that's what our code says and to kind of try to back in that to me I don't really actually want the city attorney to be looking into that because that's sort of a gotcha and I think again.

951

03:24:04.590 --> 03:24:15.300

Christy Carr: he's we've got one city attorney and it just his list just gets longer and longer and in terms of prioritizing his work, and what we asked him to do i'm not sure this is at the top.

952

03:24:16.410 --> 03:24:25.290

Christy Carr: So it may be in the future we want to talk about it and do something different, with the salary condition that right now, this is what was in our code and we had six people volunteer.

953

03:24:25.530 --> 03:24:35.670

Christy Carr: To spend a lot of time on this, and this is what they came up with so just washing that all the way, I think, is, I think we should talk about it before we direct resources.

954

03:24:39.210 --> 03:24:40.620

Rasham Nassar: Deputy Mayor so.

955

03:24:40.830 --> 03:24:49.230

Kirsten Hytopoulos: So kind of them kind of traveling this path, which goes to my request for information so i've heard one person in the Community, asking why we can't see the.

956

03:24:50.220 --> 03:25:03.630

Kirsten Hytopoulos: minutes from the salary Commission so if we pause on asking the city attorney to do any research because there's not the same time sensitivity is the Community getting to do whatever the community wants to do about a referendum.

957

03:25:04.350 --> 03:25:16.170

Kirsten Hytopoulos: If we have a conversation if we put on the agenda for us to talk as a Council about what our thoughts are about the pros and cons, because we can talk about that that invites public.

958

03:25:17.460 --> 03:25:24.210

Kirsten Hytopoulos: Public comment let's see what the public says, because they're pros and cons it invites certain people to run you know, some people to run you might not.

959

03:25:24.630 --> 03:25:34.020

Kirsten Hytopoulos: let's open it up for public comment not ask the city council and the city attorney City Council city attorney to research, it, and please let's get up on the.

960

03:25:34.440 --> 03:25:38.340

Kirsten Hytopoulos: On the city website right away for the public, the Minutes for the.

961

03:25:39.270 --> 03:25:54.060

Kirsten Hytopoulos: The Commission, so the public can understand the reasoning behind this what was what was the basis for this large increase that would just kind of flush it out, and we can put off, then our taking actions of counsel based on whether the community takes action.

962

03:25:55.110 --> 03:26:03.150

Kirsten Hytopoulos: But let's let's talk about it at least and let's get more information out there to the communities and basis for this decision, can we do that.

963

03:26:05.100 --> 03:26:10.560

Rasham Nassar: I think seems like counts would be amenable to that compromising solution.

964

03:26:11.760 --> 03:26:20.070

Rasham Nassar: There is a motion on the floor and it's been seconded That was a direct the city attorney with the counselor who made that motion mine councilmember fan.

965

03:26:21.030 --> 03:26:26.430

Rasham Nassar: of city attorney has his hand raised counselor Pandora Johnson would really like to speak, right now, so i'm going to go to councilmember Andrew Johnson.

966

03:26:27.000 --> 03:26:29.130

Brenda Fantroy-Johnson: yeah I didn't know if you saw my hand.

967

03:26:30.510 --> 03:26:47.520

Brenda Fantroy-Johnson: I think that it's really, really great that we've discovered that there's a public comment period, and I think that's what we ought to go with give the public a chance to comment, everything else is out of our purview, we should not be involved in this, I did not.

968

03:26:48.630 --> 03:26:59.220

Brenda Fantroy-Johnson: You know, seek to be appointed because we got whatever amount we got that that's neither here nor there I think when we have a process, we should follow it and not try to circumvent it.

969

03:27:00.300 --> 03:27:16.230

Brenda Fantroy-Johnson: And you know that's just my opinion I, so I would be supportive of putting it on the website and having the comment period um as far as searching for a way to to get around it, I mean I don't think that's what we should be doing.

970

03:27:19.170 --> 03:27:19.920

Rasham Nassar: city attorney.

971

03:27:21.000 --> 03:27:25.170

Joe Levan: This may become mood if the if the Deputy Mayor I topless.

972

03:27:26.580 --> 03:27:35.820

Joe Levan: withdraws from promotion or actually customer deets brought the emotion with emotion, I heard and correct me if i'm wrong, but you didn't customer details and refer to.

973

03:27:36.240 --> 03:27:47.850

Joe Levan: A legislative well you didn't limited to legislative and just so you all know, the the if you wanted the city attorney's office look into this, it would be the solution may not be legislative so.

974

03:27:49.170 --> 03:27:57.210

Joe Levan: May or you may use the word legislator, I just want that to be clear that if the Council wants to pursue that would say turns opposite it's likely going to be a broader.

975

03:27:58.110 --> 03:28:03.990

Joe Levan: look at it, not just a legislative solution and then just another clarification on that the way it's our code is written in.

976

03:28:04.320 --> 03:28:09.960

Joe Levan: The reference it's not a public comment period it's a it's an opportunity to bring a referendum.

977

03:28:10.500 --> 03:28:13.950

Joe Levan: You know, so that the public in there, as the Deputy Minister indicated.

978

03:28:14.280 --> 03:28:25.200

Joe Levan: That municipal research and services Center they have, through their website, they have a guidebook on initiatives and referendum, and in that guidebook it has specific information for all cities, about how.

979

03:28:26.100 --> 03:28:32.910

Joe Levan: People in the Community can bring referenda so that's that's what the resource that that she was referring to, so thank you.

980

03:28:34.590 --> 03:28:35.610

Rasham Nassar: councilmember deets.

981

03:28:36.060 --> 03:28:36.450

yeah.

982

03:28:37.830 --> 03:28:41.460

Joe Deets: Well Okay, this is just trying to do this on the fly.

983

03:28:42.720 --> 03:28:48.060

Joe Deets: Listening to my comments and my colleagues that I think for now i'll withdraw my emotion.

984

03:28:49.170 --> 03:29:03.270

Joe Deets: And I think that for the time being, that makes sense and let's but let's get this word out I do want to hear from the Community, and I can well imagine well we're going to hear.

985

03:29:05.130 --> 03:29:17.610

Rasham Nassar: Okay, so the motion has been withdrawn, I think the new direction is just to schedule it for future Council discussion at a future date I don't think I heard a sense of urgency from Council and scheduling.

986

03:29:18.870 --> 03:29:20.130

Rasham Nassar: Provided being that.

987

03:29:21.240 --> 03:29:33.720

Rasham Nassar: With the assumption that the city will advertise this as soon as possible opportunity so put it on the website, make sure it gets ample public attention and awareness as much as possible.

988

03:29:35.400 --> 03:29:42.360

Rasham Nassar: In the public's aware of that period that is set to expire in three weeks two or three two or three three weeks about.

989

03:29:43.800 --> 03:29:52.890

Rasham Nassar: And then, it sounds like Council would be okay, with a scheduling it at me perhaps the next business meeting to allow the public to comment during the public comment period does that sound fair.

990

03:29:54.420 --> 03:29:59.670

Rasham Nassar: So Deputy Mayor and interim city manager and I will take the scheduling that this morning's agenda setting meeting.

991

03:30:01.080 --> 03:30:02.760

Rasham Nassar: Deputy Mayor, would it be okay if we moved on.

992

03:30:03.030 --> 03:30:13.170

Kirsten Hytopoulos: yeah and just and just to be clear, is it just the may request was heard by the administration and we want those minutes up for the public to be able to hear okay great Thank you.

993

03:30:14.550 --> 03:30:19.020

Rasham Nassar: Okay, with that we are moving on our agenda, we are now on item.

994

03:30:23.220 --> 03:30:31.170

Rasham Nassar: 12 Council discussion item 12 a ordinance relating to procedures for processing conduct complaints among city council members and citizen committee members.

995

03:30:31.980 --> 03:30:37.920

Rasham Nassar: Given the time I would prefer not having an extensive debate on this item.

996

03:30:38.580 --> 03:30:46.110

Rasham Nassar: What I would like to do, however, is to alert the Council to a new, revised proposal, my apologies for not getting it into the packet on time.

997

03:30:46.500 --> 03:30:51.480

Rasham Nassar: The ordinance that you see before you is no longer something that I would like to sponsor for Councils consideration.

998

03:30:52.110 --> 03:31:01.410

Rasham Nassar: Instead, what I would like to propose Council consider as adopted adopting a process for handling conduct complaints between city council members.

999

03:31:01.650 --> 03:31:08.520

Rasham Nassar: So specifically Council member complaints against Council members is simply the process that was recently followed, which I thought work relatively well.

1000

03:31:09.210 --> 03:31:18.660

Rasham Nassar: And it's quite simple i'll just read it sentence or to conduct complaints about a Council member by another Council Member shall be brought to the attention of the mayor.

1001

03:31:19.260 --> 03:31:33.480

Rasham Nassar: The Mayor sheldon provide the complainants complaint to the respondent and an executive session shall be scheduled to hear the complaint and the respondents response, after which point, of course, the Council could be free to take whatever action it's thought was appropriate to take.

1002

03:31:34.860 --> 03:31:39.600

Rasham Nassar: So no need to deliberate tonight i'm happy to hear Council member feedback but it's 930.

1003

03:31:40.350 --> 03:31:51.210

Rasham Nassar: So i'm not looking for Council action, I just wanted to introduce the topic, this is something that was added to the agenda in February and has been punted ever since so glad to have gotten that off my chest finally.

1004

03:31:54.360 --> 03:31:56.730

Rasham Nassar: And with that we will move on.

1005

03:31:59.640 --> 03:32:12.300

Rasham Nassar: And if it's okay with Council, where there is space on an agenda, I will study session, perhaps we can schedule that and I will attach that new proposal to the agenda item if Councils amenable to that, and then we can deliberate it at that time.

1006

03:32:14.610 --> 03:32:21.720

Rasham Nassar: Okay, great item 12 be city advisory group selection committees again this has my name behind it i'm.

1007

03:32:28.500 --> 03:32:37.170

Rasham Nassar: At this so this relates to the motion that Council I made at the last business meeting, which was to prepare the ordinance to revise.

1008

03:32:37.530 --> 03:32:44.520

Rasham Nassar: The code to evict to effectuate a new process a selection process for how we hire members to our committees.

1009

03:32:45.300 --> 03:32:49.410

Rasham Nassar: More or less the process that we've practice, it was just very different from what was stated in the code.

1010

03:32:50.040 --> 03:33:00.570

Rasham Nassar: So what I presented the Council was that we make our practice consistent with what is stated in the code, the motion captured that process, you can see it in the agenda bill for this item.

1011

03:33:01.200 --> 03:33:08.550

Rasham Nassar: What is before us tonight is to discuss forming the selection committees for each city advisory group that is now recruiting or will soon be recruiting new members.

1012

03:33:10.350 --> 03:33:19.290

Rasham Nassar: Interim city manager, do you know when the city will begin advertising for those spaces, or has it happened already.

1013

03:33:19.590 --> 03:33:25.080

Ellen Schroer (she/her): It has happened, we had a round of recruitment which closed in on.

1014

03:33:25.500 --> 03:33:41.730

Ellen Schroer (she/her): On April 21 and for several committees we did have enough applicants to start the selection process for other committees, we are continuing to recruit and we'll have a second round of applications that runs through may 14 so if you'd like I can.

1015

03:33:43.260 --> 03:33:55.110

Ellen Schroer (she/her): walk through these committees with you, or we can just go ahead and set the all of the selection committees right now and then, as they become as we have enough applicants in the pool will work with you.

1016

03:33:55.560 --> 03:34:04.320

Ellen Schroer (she/her): And the the liaison and the chairs or whoever's on the selection committee to make sure that we get those scheduled, so that we can make the appointments in June.

1017

03:34:06.180 --> 03:34:13.410

Rasham Nassar: Personally, it makes sense to to pursue the latter approach in terms of the manager so isn't we don't need to go list by list just in the interest of time.

1018

03:34:14.460 --> 03:34:24.750

Rasham Nassar: There's a spreadsheet in the packet that has the liaison assignments next to So if I guess a good starting point, perhaps would be.

1019

03:34:26.220 --> 03:34:30.750

Rasham Nassar: Just to confirm that the liaisons will serve on the selection committee.

1020

03:34:31.830 --> 03:34:34.680

Rasham Nassar: And that, under the revised.

1021

03:34:35.880 --> 03:34:49.410

Rasham Nassar: Code, the practice the mayor will not be obligated to attend or be a participant in that selection on that selection committee, so it would be liaisons for those appointments that only have one Council member.

1022

03:34:50.400 --> 03:34:56.130

Rasham Nassar: Council can discuss whether or not it wants to invite a second Council member to attend to form that interview panel or not.

1023

03:34:58.410 --> 03:35:00.720

Rasham Nassar: Council members anyone have any thoughts.

1024

03:35:01.860 --> 03:35:02.700

Rasham Nassar: A Deputy Mayor.

1025

03:35:05.970 --> 03:35:09.720

Kirsten Hytopoulos: I do hope we'll have to Council member representation for each committee.

1026

03:35:10.950 --> 03:35:11.280

Rasham Nassar: Okay.

1027

03:35:11.700 --> 03:35:17.580

Kirsten Hytopoulos: And maybe we start with volunteers who are interested, and then we start pressuring people.

1028

03:35:18.900 --> 03:35:29.280

Rasham Nassar: Okay, so it looks like we have one will start at the top, the dmV Council member Snyder's the liaison So is there a second Council member that would like to participate councilmember Pollock has volunteered.

1029

03:35:31.080 --> 03:35:36.090

Rasham Nassar: Going once going twice Thank you councilmember Pollock for volunteering to serve on that selection panel.

1030

03:35:37.440 --> 03:35:48.900

Rasham Nassar: attack councilmember Car or another counselor that would like to join councilmember Car I'm going to go with counseling or fan right Johnson there Thank you I'm in arm city manager you noting these am.

1031

03:35:49.050 --> 03:35:59.040

Rasham Nassar: Thank you, and then we have the Le O FF disability board to Council members or members that's to be determined interim city manager.

1032

03:35:59.610 --> 03:36:02.160

Ellen Schroer (she/her): I just skipped over htc the historic preservation.

1033

03:36:02.160 --> 03:36:08.400

Rasham Nassar: crushing my apologies, so deputy Deputy Mayor had topless is on the htc second Council member to join.

1034

03:36:11.190 --> 03:36:15.120

Rasham Nassar: I will volunteer to join Council Deputy Mayor hi topless in that.

1035

03:36:16.230 --> 03:36:18.930

Rasham Nassar: on that committee election members.

1036

03:36:20.910 --> 03:36:21.810

Ellen Schroer (she/her): And we can.

1037

03:36:22.830 --> 03:36:27.060

Ellen Schroer (she/her): Set the Left disability board aside at this time okay.

1038

03:36:31.020 --> 03:36:33.240

Rasham Nassar: Oh, we can have Council member assignments they're.

1039

03:36:33.960 --> 03:36:36.450

Ellen Schroer (she/her): Not at this time we're still working on putting that together.

1040

03:36:36.780 --> 03:36:38.070

Rasham Nassar: Okay, great Deputy Mayor.

1041

03:36:38.610 --> 03:36:38.940

um.

1042

03:36:40.020 --> 03:36:46.170

Kirsten Hytopoulos: Do you think we can handle the lodging tax here rather than dealing with it at the order like we're talking about.

1043

03:36:46.620 --> 03:36:58.110

Kirsten Hytopoulos: I do, yes, so i'll i'll take this one, because I said i'd be the heavy on this one, so you all may recall that when matt Chairman resigned, we were left with no.

1044

03:36:58.860 --> 03:37:09.570

Kirsten Hytopoulos: rollovers en el tack and the standard over the years has been to roll over the you know the proceeding years non voting Member to become the voting members, so there was continuity of.

1045

03:37:10.290 --> 03:37:25.170

Kirsten Hytopoulos: It I forget we call that but it's late, but you know what I mean someone who knows the ropes moving forward so Council ever car and I came in, you know new to the game, this year, and when we when we set when we redid.

1046

03:37:26.400 --> 03:37:31.560

Kirsten Hytopoulos: assignments earlier this year counselor card greed to stay on with me as I came in as voting Member.

1047

03:37:32.010 --> 03:37:38.670

Kirsten Hytopoulos: But that really didn't make sense we let her do that, and now, as we get close to week you know, constituting the network continent forming a new.

1048

03:37:39.540 --> 03:37:52.440

Kirsten Hytopoulos: A new committee for the next cycle, I raised the issue that this doesn't make sense i'm not only is counselor car not going to be here going forward, but neither of us would be saying on so she would not be rolling over to Ben again be the next.

1049

03:37:53.130 --> 03:38:08.310

Kirsten Hytopoulos: Voting chair, we need one of you to step up and be this year and I see Joe already raising his hand, and this is going to be easy to fill the position so Joe will take christie's because i'm sorry because it comes with a horse position in this and we can move on.

1050

03:38:10.350 --> 03:38:11.310

Rasham Nassar: councilmember deets.

1051

03:38:11.970 --> 03:38:16.530

Joe Deets: Ah, that that's all right, thank you councilmember high topless covered everything.

1052

03:38:16.710 --> 03:38:17.850

Kirsten Hytopoulos: Okay okay.

1053

03:38:17.910 --> 03:38:20.400

Rasham Nassar: Moving on, glad we got that solved.

1054

03:38:21.510 --> 03:38:21.990

Rasham Nassar: and

1055

03:38:23.130 --> 03:38:28.260

Rasham Nassar: we're looking at the planning Commission we have councilmember car counselor all it.

1056

03:38:33.090 --> 03:38:33.420

Council.

1057

03:38:34.740 --> 03:38:36.750

Rasham Nassar: Councillor pollock raise your hand.

1058

03:38:38.340 --> 03:38:42.090

Rasham Nassar: Deputy Mayor you're unmuted did you want to comment on this.

1059

03:38:42.300 --> 03:38:44.310

Kirsten Hytopoulos: that's Okay, no I shouldn't have been a muted sorry.

1060

03:38:44.700 --> 03:38:45.060

Okay.

1061

03:38:46.920 --> 03:38:52.980

Rasham Nassar: If there's more than one counselor we're interested interested in serving on a panel, we can certainly discuss that.

1062

03:38:55.080 --> 03:38:57.330

Rasham Nassar: Otherwise we're going for first first hand raise.

1063

03:38:59.430 --> 03:39:01.740

Rasham Nassar: And councilmember councilmember Schneider.

1064

03:39:03.360 --> 03:39:05.430

Leslie Schneider: i'm interested in serving on the panel.

1065

03:39:08.130 --> 03:39:15.810

Rasham Nassar: Folic and councilmember snyder both interested in serving on the panel is it is it possible, this quote say that we can have three Council members serve on that panel.

1066

03:39:17.100 --> 03:39:18.120

Rasham Nassar: Up to three correct.

1067

03:39:20.190 --> 03:39:22.170

Leslie Schneider: And I think we did this past time around right.

1068

03:39:22.560 --> 03:39:23.280

Rasham Nassar: I think we did.

1069

03:39:25.290 --> 03:39:25.620

Ellen Schroer (she/her): Okay.

1070

03:39:25.680 --> 03:39:26.430

You can I comment.

1071

03:39:27.480 --> 03:39:36.810

Rasham Nassar: You right in and i'm saving energy, yes okay i've certainly been involved in hiring that involved the three Council members on a panel.

1072

03:39:37.770 --> 03:39:38.130

Joe Levan: So that.

1073

03:39:39.210 --> 03:39:41.310

Joe Levan: The motion says two or three so.

1074

03:39:42.270 --> 03:39:49.440

Rasham Nassar: Okay, so counseling Republic and councilmember signer Council will be joining councilmember card there um public art committee.

1075

03:39:50.520 --> 03:39:56.400

Ellen Schroer (she/her): That we don't need a selection committee for that that's taken care of us for us by our team humanities.

1076

03:39:56.670 --> 03:39:59.940

Rasham Nassar: Great you utility advisory committee that is me.

1077

03:40:02.880 --> 03:40:06.540

Rasham Nassar: doing all volunteer at once councilmember politic.

1078

03:40:08.250 --> 03:40:08.580

OK.

1079

03:40:11.670 --> 03:40:24.900

Rasham Nassar: OK counseling Republic will join me interviewing for the UFC and we have raise equity advisory committee staffed by two liaisons did that take care of it interim city manager.

1080

03:40:25.290 --> 03:40:36.930

Ellen Schroer (she/her): got Thank you and so roz will reach out to you when we have the applications pulled together and then begin to schedule with you and I think, then, also with the chair of the committee.

1081

03:40:38.010 --> 03:40:38.730

Rasham Nassar: Excellent.

1082

03:40:39.270 --> 03:40:47.670

Rasham Nassar: Thank you i'm really looking forward to putting this new practice well it's old practice in new practice i'm excited to see how it goes.

1083

03:40:49.140 --> 03:40:55.950

Rasham Nassar: So with that we are moving now on to item 13 and our agenda, which is committee reports councilmember deets.

1084

03:40:56.850 --> 03:40:57.720

Joe Deets: Thank you yeah.

1085

03:40:59.220 --> 03:41:08.730

Joe Deets: Well, colleagues, relating to the climate change Advisory Committee yesterday to committee members and myself and Diane Landry, who is from zero waste.

1086

03:41:09.510 --> 03:41:22.230

Joe Deets: Travel to the vest on island to inspect a biota gesture that has been in operation for a couple years by impact bio energy, and it was fascinating, this is a.

1087

03:41:24.180 --> 03:41:31.650

Joe Deets: A machine, if you will, that takes waste actually from a tofu plant and explore and produces.

1088

03:41:33.900 --> 03:41:39.690

Joe Deets: fertilizer liquid fertilizer and liquid natural gas liquid natural gas and so.

1089

03:41:40.200 --> 03:41:49.890

Joe Deets: All of this was to show us that this this technology works very well and the committee the CCA see is going to discuss this field trip at their next meeting and.

1090

03:41:50.430 --> 03:42:01.140

Joe Deets: They may come with a proposal for to suggest recommend that we authorize a feasibility study for such a project here on the island, so I'm just reporting that out.

1091

03:42:05.550 --> 03:42:06.360

Rasham Nassar: that's a member card.

1092

03:42:08.070 --> 03:42:15.120

Christy Carr: Thanks, I just have a question i'm not sure who it's for, but what happened to the green building Task Force, we used to get.

1093

03:42:16.410 --> 03:42:25.500

Christy Carr: Study session updates and I haven't heard anything from them in a while so i'm curious when we might get another update or hipaa liaisons would have a report or.

1094

03:42:26.970 --> 03:42:27.540

Christy Carr: Anyone.

1095

03:42:29.160 --> 03:42:38.490

Joe Deets: Well i'm i'm the liaison where the remaining liaison there was two of us now there's just me know we haven't met and I actually asked.

1096

03:42:39.810 --> 03:42:40.590

Joe Deets: staff.

1097

03:42:41.670 --> 03:42:51.270

Joe Deets: The other day for a status update, so I honestly I don't have anything to report, right now, maybe the the interim city manager has something to add.

1098

03:42:52.350 --> 03:43:08.970

Ellen Schroer (she/her): And the green building Task Force is, I think, currently in the middle of figuring out what comes next they had we had some recommendations and and have come to sort of a sticking point, so we are getting ready to regroup and come back to you with some additional information and options.

1099

03:43:11.790 --> 03:43:14.130

Rasham Nassar: Okay anything else for committee reports.

1100

03:43:15.450 --> 03:43:18.540

Rasham Nassar: we're now moving on to item 14 for the good of the order.

1101

03:43:21.990 --> 03:43:22.920

Rasham Nassar: councilmember snyder.

1102

03:43:24.900 --> 03:43:30.660

Leslie Schneider: Thank you um okay two items this first one is rather small, but I just want to.

1103

03:43:31.890 --> 03:43:40.500

Leslie Schneider: say that on Monday I as the liaison to the dmV i'm going to miss the second half of it, and so, if there's anyone that would like to.

1104

03:43:41.250 --> 03:43:51.060

Leslie Schneider: jump in and take that second half of it that'd be great customer Republic, I appreciate that feel free to jump into the whole thing you know it's two to five but.

1105

03:43:51.600 --> 03:44:02.010

Leslie Schneider: At 330 i'm going to have to jump out, I appreciate that, and then the other one is just very early notice I get a lot of emails.

1106

03:44:02.460 --> 03:44:12.690

Leslie Schneider: telling me about the Eco city World Summit that's coming up in September, some of you may recall that I physically went to the one that was in Vancouver BC.

1107

03:44:13.350 --> 03:44:27.420

Leslie Schneider: In 2019 and this one is going to be a hybrid one so it's going to be possible for for anybody to go virtually I will say that i'm I have a very.

1108

03:44:28.530 --> 03:44:31.860

Leslie Schneider: I would love to go in person and I may be still considering that.

1109

03:44:33.660 --> 03:44:38.610

Leslie Schneider: But, since it is going to be a hybrid one and virtual, I just wanted to let you all know that.

1110

03:44:40.380 --> 03:44:51.270

Leslie Schneider: To consider it and you can have more talks about it and and I don't know whether you know we would want to consider sharing that having the city pay the cost for that.

1111

03:44:52.860 --> 03:44:54.270

Leslie Schneider: So anyway.

1112

03:44:55.320 --> 03:45:00.900

Leslie Schneider: I don't know if I have any next steps, the right now the the July there's an early July.

1113

03:45:02.460 --> 03:45:15.150

Leslie Schneider: like an early bird rate and there is also a public sector government rates so it would be a few hundred dollars to register for don't take my you know in that neighborhood in the low hundreds to.

1114

03:45:16.470 --> 03:45:19.290

Leslie Schneider: participate virtually in this.

1115

03:45:20.580 --> 03:45:24.660

Leslie Schneider: In this ECO city world summit, and I just highly recommend it Thank you.

1116

03:45:27.900 --> 03:45:29.580

Rasham Nassar: councilmember geez yeah.

1117

03:45:29.610 --> 03:45:36.390

Joe Deets: Thank you just very quickly just want to mention i'll be having my open office hours to Saturday so from 10 to noon.

1118

03:45:39.420 --> 03:45:39.690

Joe Deets: Great.

1119

03:45:40.320 --> 03:45:42.150

Rasham Nassar: Thank you for that councilmember Polish.

1120

03:45:42.690 --> 03:45:48.300

Michael Pollock: yeah, I just wanted to actually follow up on councilmember Schneider I know, last time you were.

1121

03:45:49.320 --> 03:46:00.030

Michael Pollock: You went to it, I ran into you and you were so excited about it, I don't know Maybe it was months afterwards, but it's that it really does sounds like something pretty special, so I hope.

1122

03:46:00.720 --> 03:46:07.470

Michael Pollock: I can get the contact, or you can provide the contact information and sort of how to move forward, but it seems really relevant to a lot of the.

1123

03:46:07.800 --> 03:46:20.160

Michael Pollock: goals and aspirations that our Community so i'm i'm just thanks for bringing that up and I hope this one is as exciting as the last one or inspiring some so looking forward to hearing more about.

1124

03:46:24.540 --> 03:46:26.010

Rasham Nassar: Anything else for good of the order Council.

1125

03:46:28.860 --> 03:46:34.770

Rasham Nassar: Okay, with that we are adjourned Thank you everyone have a great night see you next Tuesday.
